He shall devote so much of his time to the duties of his office as may be necessary for the proper supervision and direction of the business of the department. The members of the board shall serve without compensation, except that the president of the board shall receive a salary of \$3,000 per annum, payable in equal monthly installments.

(g) The board of public service commissioners shall have power:

To manage and control all waters, water rights, water bearing lands, water-works, reservoirs, zanjias, ditches, and all electric plants, works, systems and equipments, and all electric power, belonging to the city.

To construct, operate, maintain and extend water works, dams, reservoirs, zanjias, ditches, canals, conduits, aqueducts and other means for supplying the city and its inhabitants with water, also electric plants, works, systems and equipments, and other means for supplying the city and its inhabitants with electricity for light, power, heat and other purposes; and to acquire and take, by purchase, lease, condemnation or otherwise, and, in its own name, to hold, as special trustee for the city, any and all property situated within or without the limits of the city, that may be necessary or convenient for such construction, operation, maintenance or extension.

To supply and distribute any surplus water or surplus electric power, belonging to or controlled by the city, and not required for use within its limits, to consumers outside of the city, for their own use, and to municipal corporations, outside of the city, for municipal uses, or for resale, disposal or distribution, by such municipal corporations, to consumers within their limits, respectively; such surplus water and electric power to be so supplied and distributed, for use outside of the city, under schedules of rates, fixed as hereinafter provided, which shall be of uniform operation, as near as may be, and shall be fair and reasonable, taking into consideration, among other things, the nature of the use, the quantity supplied, and the value of the service; *provided, however*, that water or electric power shall not be supplied by the city at less rates outside of the city than inside thereof, for the same or similar uses; *provided, further*, that the supplying or distribution of water or power, for use outside of the city, as aforesaid, shall, in every case, be subject to the paramount right of the city of Los Angeles, at any time, to discontinue the same, in whole, or in part, and to take and hold, or to distribute, such water and power, or either thereof, for the use of the city and its inhabitants; and *provided, further*, that contracts for supplying surplus water or surplus electric power by the city to municipal corporations outside of the city may be made by the board, in the name of the city, for periods not exceeding fifteen years, and upon such terms and conditions, and for such compensation to the city, as shall be prescribed by resolution adopted by said board and approved by a vote of two thirds of the members of the whole council; but every such contract must, before the making or execution thereof, be assented to by a majority of the qualified electors of said city voting upon the proposition at a general or special election at which such proposition shall be lawfully submitted; and in every such contract with a municipal corporation, as aforesaid, the right shall

be reserved to the city to terminate the same upon three years' written notice to such municipal corporation, to be given by said board whenever it shall be determined and declared by resolution, adopted by said board, and approved by an ordinance of said city, that the water and electric power, or either, to be supplied under such contract, is required for the city of Los Angeles and its inhabitants.

To regulate and control the use, sale and distribution of water and electricity belonging to the city, the collection of water and electric power and light rates, and the granting of permits for connections with said water works, zanjas, ditches, electric works or electric systems, and to fix the rates to be charged for such connections; and, subject to the approval of the city council, by ordinance, to fix the rates to be charged for water, electric power and electric light, whether within or without the city limits, and to prescribe the time and manner of payment of the same. Provided, however, that said board may, in its discretion, with the approval of the council given as aforesaid, so fix the water rates as to produce a revenue sufficient only for the purpose of defraying the necessary expenses of conducting the business of said department pertaining to water, of operating the water works, and of making all current and ordinary extensions, betterments and repairs, and for no other purpose.

To control and order the expenditure of all moneys received from the sale or use of electric power, or otherwise in connection with the operation and management of the electric power works and systems of said city, *provided* that all such moneys shall be deposited in the treasury of the city, to the credit of a fund to be known as the "power revenue fund," and shall be kept separate and apart from the other moneys of the city, and shall only be drawn from said fund upon demands authenticated by the signatures of the president and secretary of the board, or, in the absence of the president, by signatures of two members and the secretary of the board, except that the city council, at the time of fixing the general tax levy, may, in its discretion, by ordinance, apportion and set part, out of the moneys then in said power revenue fund, and not appropriated to other purposes or required to meet outstanding obligations or liabilities payable out of such fund, an amount sufficient to meet all sums coming due for interest or principal, or for interest and principal upon all outstanding electric plant bonds, before the time for fixing the next general

tax levy, and the city treasurer shall use the money so apportioned to make such payment, and for no other purpose; and if there shall be a surplus remaining, the same shall forthwith be retransferred into said power revenue fund.

Except as in this charter otherwise provided, none of the money in said power revenue fund, or coming under the control of said board, in connection with the operation of the electric power plants, works or systems of the city, shall be appropriated or used for any purpose or purposes other than the following, to wit:

Fourth—For the necessary expenses of acquiring, by purchase, condemnation, or otherwise, or leasing electric power plants, works or systems, *provided*, that such expenditures shall first be approved by ordinance passed by a vote of two thirds of the members of the whole council.

Provided, however, that said board may, in its discretion, with the approval of the council given as aforesaid, so fix the rates for electric power and light as to produce a revenue sufficient only for the purpose of defraying the necessary expenses of conducting the business of said department pertaining to electric power, of operating and maintaining power works, plants, systems and equipments, and of making all current and ordinary extensions, betterments and repairs thereof, and for no other purpose.

(1) The said board shall also have power, by a resolution adopted by a majority of all of its members, and recorded in the minutes with the ayes and noes at length, to make and enforce all such reasonable by-laws, rules and regulations as may be necessary for its government, for the administration of the public service department, and for the exercise of the powers conferred by this article, *provided*, that no such rule, by-law, or other act of the board fixing water or electric power or light rates, or prescribing the time or manner of payment thereof, shall be effective until the same shall be approved by the city council, and thereafter published for at least three days in a daily newspaper printed and published in the city of Los Angeles.

Every proposal to perform a contract with the city or with any board, commission or officer thereof, shall have thereon, or attached thereto, the affidavit of the bidder that such proposal is genuine, and not sham or collusive, or made in the interest or in behalf of any person not therein named, and that the bidder has not directly or indirectly induced or solicited any other bidder to put in a sham bid, or any other person, firm or corporation to refrain from bidding, and that the bidder has not in any manner sought by collusion to secure for himself an advantage over any other bidder. Any bid made without such affidavit, or in violation thereof shall not be considered. If at any time it shall be found that the person, firm or corporation to whom a contract has been awarded has, in presenting any bid or bids, colluded with any other party or parties, then the contract so awarded shall be voidable at the option of the city council, or the board, commission or officer, making the same on behalf of the city, as the case may be, and the contractor and his bondsmen shall be liable to the city for all loss or damage which the city may suffer thereby; and the council, board, commission or officer, as the case may be, may advertise for a new contract.

Sec 207c. Each officer, commission or board shall have authority to expend and make contracts involving the expenditure of one twelfth of the fund apportioned to such officer, commission or board during each month of the fiscal year, and no more, unless specially authorized so to do by the council, *provided*, that if during any month less than one twelfth of the fund so apportioned shall be expended, the amount unexpended may be expended in any subsequent month of the fiscal year without such authorization.

Sec. 207d. All purchases of materials or supplies involving an expenditure of five hundred dollars or less, and required for or by any body, board, commission or officer of the city, excepting purchases made by the board of library directors, and purchases requiring payment from funds derived from the sale of water, electric power, or bonds of the city, shall be made from the lowest responsible bidder, in the manner that may, from time to time, be prescribed by ordinance, through the purchasing agent of the city, when one shall have been appointed, and upon requisition delivered to him and signed by the president, or two members of such body, board or commission, or by such officer. Other contracts, involving an expenditure of five hundred dollars or less, made by any body, board, commission or officer of the city, excepting contracts made by the board of library directors, and contracts requiring payment from funds derived from the sale of water, electric power, or bonds of the city, shall be made in the manner that may, from time to time, be prescribed by ordinance, *provided, however*, that, in the case of urgent necessity, when the procedure prescribed by this section cannot be followed without loss to the city, any body, board, commission or officer of the city mentioned in Section 207c of this charter, may purchase materials or supplies required for immediate use by the city, when such purchase does not exceed twenty-five dollars; *provided*, that such emergency purchases shall not exceed one hundred dollars for any such body, board, commission or officer, during any one month.

SALE OF PROPERTY.

Sec 207e. Any real property owned by the city of Los Angeles may, subject to the limitations and exceptions elsewhere prescribed in this charter, be sold, either in whole, or in part, in accordance with the provisions of this section. Whenever the public interest or convenience may require, the council is hereby authorized to order the sale, and to sell any such real property, either at public auction or to the highest bidder for cash after advertising for bids; *provided, however*, that the council shall prescribe the minimum price for which the same will be sold, and if the price offered at such auction, or the amount bid by the highest bidder at such sale, shall be less than such minimum price, such property shall not be sold.

Before ordering the sale of any such real property the council shall, by a two-thirds vote of all its members, pass an ordinance declaring its intention to sell the

same, describing the property proposed to be sold in such manner as to identify the same, specifying the minimum price for which it will be sold, and stating whether such sale shall be at public auction or to the highest responsible bidder after advertising for bids. Such ordinance shall be subject to the provisions of this charter providing for a referendary vote.

Unless a petition demanding the submission of such ordinance to a vote of the qualified electors of the city be filed with the city clerk within thirty days after the publication thereof, the council may, in its discretion, after the expiration of such thirty days, cause notice of the sale of the property described in such ordinance to be published for ten days in one or more daily newspapers printed and published in said city.

In the case of any sale of any real property after advertisement for bids, all such bids shall be sealed and filed in the office of the city clerk on or before a time to be specified in the notice of sale. The city clerk shall present all bids received by him to the council at its next regular meeting after the expiration of the time for the submission of bids. The council shall thereupon, in public session, open, examine and declare all bids received. At the time of opening the bids, any responsible person may bid for such property a sum exceeding the highest bid by not less than five per centum, and such bid so made may be raised by any other person or persons until the property shall either be sold or withdrawn from sale. No bid shall be considered unless accompanied by a cash deposit or check certified by a responsible bank in the city of Los Angeles in an amount not less than ten per centum of the amount of such bid.

The council may in its discretion in all cases where property is offered for sale reject any or all bids, or withdraw such property from sale at any time, should it deem such action to be for the public interest.

Any real property proposed to be sold that is under the control of any board or commission authorized by this charter or by law to acquire, hold or control real property shall not be sold except with the approval of a majority of such board or commission, and the proceeds of any such sale shall be paid into the city treasury and placed in the fund of the department having control of such property.

Sec. 207f. Any personal property belonging to the city, that is no longer required for the use of the city, may be sold under such terms and conditions, and under such procedure as the council may by ordinance prescribe, *provided, however*, that no such personal property that is under the control of any department of the city government shall be sold except at the request or with the approval of the board, commission or officer having the management of such department. The proceeds of the sale of personal property shall be paid into the city treasury and placed in the fund of such department.

CHARTER AMENDMENT NUMBER SEVEN.

That Section 25 of the charter be amended to read as follows:

Sec. 28. It shall provide for the surveys of streets and blocks of land within the limits of the city, and may, by ordinance declare such surveys official, and may compel all persons to conform to the streets as they are now or may be hereafter lawfully established and declared official, or otherwise dedicated.

It may, by ordinance, provide for making and establishing surveys and plans of streets, lanes, alleys, boulevards, courts and other public places proposed to be laid out, opened, widened, straightened or extended by the city within its limits, prescribe the method of procedure therefor, and require owners of property to conform to such surveys and plans in platting or subdividing their lands and in making improvements thereon.

CHARTER AMENDMENT NUMBER EIGHT.

That Article XXI of the charter be amended to read as follows.

ARTICLE XXI.

TAXATION, FINANCE, CLAIMS AND DEMANDS.

Sec. 208. The fiscal year of the city shall commence on the first day of July of each year and shall end on the thirtieth day of June of the following year.

Sec. 209. It shall be the duty of every officer of the city, the conduct of whose office requires the expenditure of money, and every board or commission having the management and control of any department of the government of the city, to prepare and file with the city auditor, on or before the first day of April of each year, a detailed estimate in writing of the amount of expenditure required for the proper conduct of the business of their respective offices and departments for the next ensuing fiscal year, including a statement of the salaries of their subordinates.

Sec. 210. On or before the first day of May of each year, the city auditor shall transmit to the council an estimate of the probable expenditures of the city government for the next ensuing fiscal year, stating the amount required for the interest and sinking funds for all outstanding bonded indebtedness of the city, and the requirements of all of the offices and departments of the municipal government in detail, and showing specifically the amount necessary to be provided for

each fund and department; also an estimate of the amount of income from fines, licenses and other sources of revenue, exclusive of taxes upon property, and the probable amount to be raised by taxation.

Sec. 211. The council shall meet annually, prior to fixing the tax levy, and by resolution adopted by a majority of all its members, shall make a budget of the estimated amounts required for the interest and sinking funds for the bonded indebtedness of the city, and to pay the expenses of conducting the business of the city government for the ensuing fiscal year. The budget shall be prepared in such detail as to the aggregate sum and the items thereof allowed to each department, officer, board or fund, as the council may determine. The resolution adopting the budget shall be presented to the mayor for his approval and signature. Any item of said budget may, within ten days after the adoption thereof, be vetoed in whole or in part by the mayor, and it shall require the vote of two thirds of the council to overcome such veto. In making such budget, the council may provide for a general expense fund for expenses not otherwise provided for. After the budget is made in accordance herewith, it shall be signed by the president of the council, and the city clerk, and the several sums thereof shall thereupon be deemed appropriated for the ensuing fiscal year to the several purposes, departments and offices therein specified. The budget shall be filed in the office of the city auditor. The council must cause to be raised by tax levy, according to law, the amounts so appropriated, less the amount to be received by the city from fines, licenses and other sources of revenue.

Sec. 212. When the assessment list is made out and transmitted to the council, as provided by the ordinances of the city, the council shall, at the time and in the manner in such ordinance provided, sit and act as a board of equalization, and shall have, as regards the equalization of said list, powers similar to those conferred by law upon the board of supervisors of Los Angeles County, as a board of equalization of state and county taxes.

The meetings of said board of equalization shall be public, and notice of such meetings shall be given by publication at such time and in such manner as shall be provided by ordinance. The said board shall have the power, in its discretion, to increase or diminish the amount of any or all of the assessments on said lists, both as to real and personal property, *provided*, that before any such assessment shall be increased, due notice shall be given to the owner or owners of the property the assessed value of which is sought to be increased, and such owner or owners shall have the opportunity to be heard before the board, under oath; such notice to be regulated in all respects by ordinance.

After such list has been equalized, it shall be returned to the council, which shall forthwith fix the levy or rate per cent of taxes levied for all municipal purposes for such fiscal year.

Every tax so levied shall have the force and effect of a judgment against the person and property taxed, and shall be and constitute a lien upon the real property situated in said city so assessed or owned by the person against whom such assessment is made.

Every such assessment and the lien thereof shall have the force and effect of an execution duly levied upon all property owned by the person assessed, or by the unknown owner of such property when assessed to an unknown owner. The judgment is not satisfied nor discharged until the tax assessed against the property and the owner is paid, or the property sold for the payment thereof.

The city shall have such other rights, claims and liens for the amount of such municipal taxes as may now or hereafter be given to or exercised by the people of the State of California for and on account of the assessment of state and county taxes levied in Los Angeles County.

The mode and manner of collecting such municipal taxes, and enforcing such tax lien, and the proceedings thereafter, shall substantially be the same as the mode and manner at the time prescribed by law for the collection of state and county taxes in said county, *provided, however*, that the council may, by ordinance, have the power to regulate the time or times of the collection of said taxes within each fiscal year, and prescribe by what officers the respective duties appertaining to such collection and enforcement shall be performed. All proceedings, sales, certificates and conveyances had, made and executed by them in pursuance thereof, shall be of like force, effect and validity as is or may hereafter be given by law to like proceedings and acts in the matter of the collection of state and county taxes in said county.

Sec. 213. The council must, not later than the last Tuesday in August of each year, adopt an ordinance levying upon the assessed valuation of the property of the city, subject to the provisions of this charter, a rate of taxation upon each one hundred dollars of valuation, sufficient to raise the amounts estimated to be required in the annual budget, less the amounts estimated to be received from fines, licenses and other sources of revenue.

Sec. 214. The income and revenues paid into the treasury shall be apportioned to and kept in separate funds. It shall not be lawful to transfer money from one fund to another, or to use the same in payment of demands upon another fund, except in the case of the general expense fund and the reserve fund; *provided, how-*

er, that every fee, commission, percentage, allowance or compensation authorized by law to be charged, received or collected by any officer of the city for any service shall be paid into the city treasury, to the credit of such fund, and be applied to such purposes as the council shall by ordinance determine.

Sec 215. At the close of each fiscal year the council shall direct the auditor and treasurer to transfer all surplus moneys remaining in each fund, over and above the amount of outstanding demands and liabilities payable out of such fund, to a fund to be called the "reserve fund," except such surplus moneys as are in the several interest and sinking funds, bond funds, trust funds, the library fund, the water revenue fund, the power revenue fund, and the harbor revenue fund, but the council may by ordinance direct said surplus moneys in the power revenue fund or the harbor revenue fund transferred to such reserve fund.

Sec. 216. All claims and demands against the city of Los Angeles, except coupons for interest and installments of the principal of outstanding bonds of the city, shall be paid only on demands as hereinafter provided, on forms and blanks to be prescribed by the city auditor.

Sec. 217. Every claim and demand against the city of Los Angeles, except as provided in the preceding section, shall be first presented to and approved by the board, commission or officer authorized by this charter to incur the expenditure or liability represented thereby; if such approval be made by a board or commission the same shall be evidenced by a vote of two thirds of the members thereof, taken with the ayes and noes and spread upon the minutes, and the action of such board or commission, and the date thereof, must be endorsed on such demand, and signed in writing by the president or by two members thereof, and the secretary or clerk thereof, and if such approval be made by an officer he, or his chief deputy, shall endorse the same by his signature in writing. In all cases the date of such approval shall be given.

Sec 218. The salaries of all officers and employees of the city shall be paid monthly; *provided, however*, that laborers and other employees whose wages are fixed by the day, may be paid weekly, if the council, by ordinance, shall so provide. At the expiration of each month the board, commission or officer having the management or control of any department or office shall cause a pay roll to be made out of all persons employed in such department or office during the preceding month, stating the amount of the compensation of such persons in detail, which said pay roll shall be certified as herein provided in the case of demands against the city. In the case of laborers and other persons whose wages are fixed by the day, and payable weekly, as above provided, such pay roll shall be so made out and certified at the end of each week for the preceding week. Every such pay roll shall be filed with the city auditor and shall be accompanied by proper demands or pay checks for the salary or wages of each person specified therein *provided*, that nothing in this article contained shall be deemed to affect or limit the provisions of Section 151 of this charter.

Sec 219. All demands approved by any board, commission or officer of the city shall be presented to the city auditor, who shall satisfy himself whether the money is legally due and remains unpaid, and whether the payment thereof from the city treasury is authorized by law, and out of what fund. If he approve it, he shall endorse upon it the word "approved," with the name of the fund out of which it is payable, and sign his name thereto, *provided* that such approval by the city auditor shall be valid only for such amount as shall have been approved by the board, commission or officer approving the same. If, in the judgment of the city auditor, such demand should be allowed only for a less amount than approved by such board, commission or officer, or if he shall disapprove said demand, he shall transmit the same to the finance committee of the council.

Sec. 220. Any demand transmitted to the finance committee of the council by the city auditor shall be considered by such committee, together with the objections of the city auditor thereto. Such demand shall be reported by the finance committee to the council with its recommendations, and the council shall consider the same and the action of the auditor and finance committee thereon.

The council may overrule or sustain the objections of the city auditor to said demand, and its action shall be endorsed thereon, certified by the signatures of the president of the council and city clerk, and the demand shall thereupon be returned to the city auditor. If the action of the council is to overrule the objections of the city auditor to said demand, he shall make a record of the demand as in the case of demands approved by him, if the action of the council is to sustain the objections of the city auditor thereto, he shall file said demand.

Sec. 221. All demands against the fund for the support or maintenance of the office of the city auditor shall, before payment, be presented to the mayor, who shall have the same powers as to the approval or disapproval thereof as are exercised by the city auditor in the case of other demands. The action of the mayor with respect thereto shall be subject to review by the council, as hereinbefore provided.

Sec 222. No demand can be approved by any board or officer, or audited, unless it specify each several item, with the date and amount thereof.

Sec 222a. No payment can be made from the city treasury, or out of the public funds of said city, unless the same be specially authorized by law or this charter,

nor unless the demand which is paid be duly audited as in this charter provided. The term "audited," as used in this charter with reference to demands upon the treasury, is to be understood to mean that said demands have been presented to, passed upon and approved by every officer, board, commission or body, as required by this charter, or that the objections of the city auditor have been overruled, as herein provided, and this must appear upon the face of the paper representing the demand, or else it is not audited, *provided*, that the approval or rejection in whole or part of a demand by the committee on finance of the council is advisory only to the council, and the rejection by said committee of a demand in whole or in part does not of itself prevent its being duly audited.

Sec. 222b. No demand upon the treasury shall be allowed by the city auditor in favor of any person or officer in any manner indebted thereto without first deducting the amount of such indebtedness, nor to any person or officer having the collection, custody of or disbursement of public funds, unless his account has been duly presented, passed, approved and allowed, as required by law or this charter; nor in favor of any officer who shall have neglected to make his official returns or his reports in writing in the manner and at the time required by law or this charter, or by the ordinances or regulations made in pursuance thereof; nor to any officer who shall have neglected or refused to comply with any of the provisions of this charter or ordinances of the city, or any act of the legislature regulating the duties of such officer, on being required in writing to comply therewith by the mayor or the president of the council or the city auditor; nor in favor of any officer for the time he shall have absented himself, without lawful cause, from the duties of his office during the office hours prescribed by this charter or by ordinance, and the city auditor may examine any officer receiving a salary from the treasury on oath respecting such absence.

Sec. 222c. The city auditor must keep a record of all demands on the treasury approved by him, or his objections to which have been overruled, showing the number, date, amount, and name of the payee thereof, on what account allowed, and out of what funds payable, and it shall be a misdemeanor in office for the city auditor to deliver any demand with his approval thereon, or otherwise, until this requisite has been complied with.

Sec. 222d. Every lawful demand upon the treasury, duly audited, as in this charter required, shall in all cases be paid on presentation and cancelled and the proper entry thereof be made, if there be sufficient money in the treasury belonging to the fund out of which it is payable; but if there be not sufficient money belonging to said fund to pay such demand, then it shall be registered in a book to be kept by the treasurer for that purpose, showing its number, when presented, date, amount, name of the payee, and on what account allowed, and out of what fund payable; and being so registered, shall be returned to the party presenting it, with an endorsement of the word "registered," dated and signed by the city treasurer. All registered demands shall be payable in the order of their registration.

Sec. 222e. Nothing in this article contained shall be construed as interfering with or preventing the payment by the city treasurer of bonds of the city of Los Angeles, and the interest coupons thereof, in accordance with the constitution, laws and ordinances authorizing the issuance of said bonds.

Sec. 222f. All public moneys collected by any officer or employee of the city shall be paid into the city treasury, without any deduction on account of any claim for fees, commissions or any other cause or pretense; and the compensation of any officer, employee or other person so collecting money, shall be paid by demands on the treasury, duly audited as other demands are audited, and paid.

Sec. 222g. No suit shall be brought on any claim for money or damages against the city of Los Angeles, its board of education, board of directors of the Los Angeles public library, board of public works, or board of public service commissioners, or any officer or board or commission of the city, until a demand for the same has been presented, as herein provided, and rejected in whole or in part. If rejected in part, suit may be brought to recover the whole. Nor shall suit be brought against said city, or any board, officer or commission thereof upon any claim or demand that has been in whole approved and audited as provided herein: *provided* that nothing herein contained shall be construed so as to deprive the holder of any demand of his right to resort to writ of mandamus or other proceeding against the city council, or any board, commission or officer of said city, to compel it or him to act upon such claim or demand, or to pay the same when so audited.

CHARTER AMENDMENT NUMBER NINE.

That Section 261 of the charter be amended to read as follows:

Sec. 261. It shall be unlawful to sell, convey, alienate, transfer or lease any part of the water front, tide lands, submerged lands, or appurtenances thereunto belonging, owned or held by, or in the possession or under the control of the city of Los Angeles, or any borough therein, unless thereunto authorized by two thirds of the qualified voters of the city voting at a general or special election at which such proposition shall have been submitted: *provided*, that whenever the city of Los Angeles shall have acquired the ownership, or control and possession, of more than ten thousand feet (linear measurement) of water frontage, and the co-terminous

and adjacent tide and submerged lands upon the water front, as fixed by the government harbor lines upon the navigable waters of Los Angeles harbor, formerly known as the outer or inner harbor of San Pedro, not including water frontage upon any island, or breakwater, nor water frontage held by any borough, nor any water frontage created by the construction of channels by any person, firm or corporation other than the United States, the city of Los Angeles may grant, by ordinance, to any person, firm or corporation wharf franchises and warehouse and other privileges and permits to use the water frontage in excess of said ten thousand feet, so owned or controlled by the city, for periods not exceeding fifteen years on alternate frontages upon said harbor, not exceeding two thousand feet in a body, with the adjacent and co-terminous tide or submerged lands necessary for such purposes as determined by ordinance. Said ten thousand feet, and each alternate two thousand feet of such excess water frontage upon said harbor, together with the adjacent and co-terminous tide and submerged lands, shall be reserved for public use, as aforesaid *provided, however*, that whenever it shall be determined by the city of Los Angeles, by ordinance, or by other proper legal authority, that any part of such tide or submerged lands not nearer than three hundred feet to navigable waters are no longer required for public use, by reason of their remoteness from the harbor lines, as now or as hereafter established, such tide or submerged lands may be subdivided into lots and blocks, or otherwise, with streets or other public ways leading to the water front, and with such other streets or other public ways as may be established therein and may be leased by the board of harbor commissioners, subject to approval by ordinance, if there be such board, otherwise by the council, and in any event subject to the referendary provisions of this charter, for periods not exceeding thirty years; but in all cases where either franchises or privileges are granted or permits issued, or such tide or submerged lands leased, the same shall be granted, issued or leased, as the case may be, to the highest bidder, and after publication of notice for not less than ten days. In case of any grant of franchise or privilege, or the issuance of any permit under this section, the same shall, at all times be granted or issued upon the condition, whether expressed therein or not, that the wharves, docks, warehouses or other works or structures provided for therein shall, if not already constructed, be completed within three years from the date of such franchise, privilege or permit, and all such franchises, privileges or permits, shall provide for the payment to the city of either an annual rental or a percentage of the gross annual receipts, received from the use, operation or possession of the franchise, privilege or permit, or both such rental and percentage. Every such franchise, privilege or permit shall contain a condition that in case the same, or the property, or any part thereof embraced therein, shall be transferred or subleased, or the control thereof be given or granted to any person, firm or corporation, so that such person, firm or corporation shall then own, hold or control, under franchises, privileges or permits, granted or issued by the city of Los Angeles, more than two thousand feet of said water frontage, upon any part of said Los Angeles harbor, then such grant, privilege or permit, and all rights thereunder, shall thereupon and thereby be absolutely terminated. Every franchise, privilege or permit granted or issued hereunder, shall be subject at all times to all rights of way over tide or submerged lands embraced therein for such public sewers, pipe lines, conduits electric lines highways streets, street or other railroads, as may from time to time be determined by the council. Whenever application shall be made for the lease of any part of such tide or submerged lands, that may be no longer required for public use, as aforesaid, an open bid shall accompany the same, and notice thereof shall be given by publication for not less than ten days in a daily newspaper printed, published and circulated in said city. At any time within thirty days after the last publication of such notice, any person, firm or corporation may make an open bid for the lease of such property. Upon the expiration of such thirty days, the board of harbor commissioners, if there be such board, or if not, then the council, in open session, may lease such land to the highest bidder therefore or then bidding, or refuse so to do. Every lease of tide or submerged lands no longer required for public use, shall provide for readjustment of rental every ten years during the period of such lease. The procedure for such readjustment shall be specified in such lease, but in no case shall such readjustment decrease the amount of rental.

In any case, where the city of Los Angeles or its predecessors in interest or authority, shall have granted or issued any franchise or permit or any document purporting to be such, to any person, firm or corporation, the water front, tide lands and submerged lands covered thereby, shall not be deemed to be subject to grants for such purposes by the city of Los Angeles under this section until such franchise or permit shall have been cancelled or otherwise terminated, and until the city of Los Angeles shall have regained peaceable possession of such property.

CHARTER AMENDMENT NUMBER TEN

That a new subdivision be added to Section 2 of the charter, relating to the powers of the city, to be known as Subdivision 43, and to read as follows:

(43) To grant franchises, for terms not exceeding forty years, for the construction and operation of underground electric interurban, street or other rail-

ways through subways, and for the construction and operation of elevated electric interurban street, or other railways along or across public streets, highways, and other public places; *provided* that any such grant shall first be authorized by a vote of a majority of the qualified electors of the city voting at an election at which such question shall be lawfully submitted, *and provided, further*, that no franchise along any public street or highway for the construction or operation of any elevated railway shall be submitted to the vote of the people unless there shall first be filed with the council the written consent thereto of the owners of a majority of the frontage, other than public property, along such street or highway. Every franchise for an underground or elevated interurban or street railway shall be upon condition whether expressed therein or not, that at any time after twenty-one years from the date of the grant thereof the city may take over the tangible property and plant of such railway over and along the line covered by such franchise, including any leases and rights of way, upon the same conditions as are in this article provided with reference to other franchises; and all such franchises shall contain all other terms, conditions and provisions required to be set out in surface street and interurban railway franchises, so far as applicable.

The council may, upon its own motion, submit an ordinance to the vote of the qualified electors, authorizing the council to sell any such franchise at any special or general election. And it shall be the duty of the council to submit such an ordinance at the next general election, or the next special election, that may be called for any other purpose, whenever a petition asking that the same be so submitted shall be filed with the clerk and signed by not less than ten per cent of the total number of qualified electors voting at the last general city election at which a mayor was elected.

CHARTER AMENDMENT NUMBER ELEVEN.

That a new section be added to the charter, immediately after Section 30 thereof, to be known as Section 30a, and to read as follows:

Sec. 30a. No building shall be erected within said city of a height exceeding one hundred and fifty feet, except public buildings and monuments, and except spires, domes and towers of houses of religious worship, when authorized by ordinance passed by a two-thirds vote of the council; and except other structures or buildings, or parts of buildings, not designed for business, manufacturing or commercial purposes, when authorized by ordinance adopted by a vote of a majority of the qualified electors of the city voting thereon at an election at which such ordinance may be submitted.

CHARTER AMENDMENT NUMBER TWELVE.

That article XXII of the charter be amended by adding a new section thereto, immediately following Section 22S, to be known as Section 22Sa, and to read as follows:

Sec 22Sa. Whenever, under the terms of this charter or under the provisions of the constitution or of the general laws of the State of California, any incorporated city or town shall be consolidated with or annexed to the city of Los Angeles, and the charter of such incorporated city or town shall contain any provision or provisions restricting, prohibiting or regulating the sale, distribution or giving away of any spirituous, malt, vinous or alcoholic liquors, within the boundaries of such city or town so consolidated with or annexed to the city of Los Angeles, such provision or provisions shall, upon such consolidation or annexation becoming effective, be and thereby become an integral part of and take effect as a subdivision of the charter of the city of Los Angeles, but only for the purposes in this section specified, and shall operate and be of full force and effect in the territory of such city or town so consolidated with or annexed to the city of Los Angeles, and shall govern as to restricting, prohibiting or regulating the sale, distribution, or giving away of spirituous, malt, vinous or alcoholic liquors within such territory. No such provision or provisions shall be altered or repealed except by the vote of a majority of the electors within such territory, voting thereon at any election at which such question shall have been submitted to the electors within such territory.

CHARTER AMENDMENT NUMBER THIRTEEN.

That two new subdivisions be added to Section 2 of the charter, relating to the powers of the city, to be known as Subdivisions 44 and 45, and to read as follows:

Said fund shall be created, maintained and disbursed in such manner as may be prescribed by ordinance.

(45) To create and maintain, and provide for the disbursement of, a policeman's relief, health, life insurance and pension fund, to be used for the payment of pensions to members of the police department of the city who shall be retired from such depart-

ment; for the payment of pensions to members of such department who shall become physically disabled by reason of bodily injuries received in, or sickness caused by, the discharge of their duties, and for the payment of pensions to the widows and children of members of such police department who shall have died from bodily injuries received in the performance of their duties. Said fund shall be created, maintained and disbursed in such manner as may be prescribed by ordinance.

CHARTER AMENDMENT NUMBER FOURTEEN.

That a new subdivision be added to Section 2 of the charter, relating to the powers of the city, to be known as subdivision 46, and to read as follows:

(46) To grant franchises or privilege in, on, through, across, under or over any street, avenue, alley, bridge, viaduct, tunnel, subway or other public place, or upon the water front or in or upon navigable waters within the city; to prescribe the terms and conditions of any such grant, and to prescribe by ordinance the method of procedure for making such grants; subject, however, to the limitations elsewhere contained in this article.

CHARTER AMENDMENT NUMBER FIFTEEN.

That a new subdivision be added to Section 2 of the charter, relating to the powers of the city, to be known as subdivision 47, and to read as follows:

(47) To publish a newspaper, and to sell and distribute the same.

I return to you, without my approval, Assembly Bill No. 499, entitled, "An Act to amend Section 939 of the Code of Civil Procedure, relative to appeal."

This bill seeks to amend Section 939 of the Code of Civil Procedure by adding to Subdivision 3 thereof, a clause numbered 10, according the right of appeal from an order granting or denying a motion to quash the service of summons upon a defendant. I would be very glad, indeed, to accord this right if there were a companion measure which would avoid the necessity of a stay of proceedings in the action upon the taking of an appeal from an order made upon a motion to quash the

service of summons. There is no such companion measure, however, and under Section 949 of the Code of Civil Procedure, I think that an appeal from a motion to quash the service of a summons would quite likely stay proceedings in the action until the determination of that motion. I do not think that this was your intention in passing your bill; and I do not think that pending the determination of appeal of such a motion, proceedings in the action should be stayed. This would be the result if your bill became a law.

For the reasons stated, I have vetoed the bill.

HIRAM W. JOHNSON,
Governor of California

The question being, "Shall the bill become a law notwithstanding the veto of the Governor?"

The roll was called, and veto sustained by the following vote:

AYES—None.

671. The board must not entertain, for the second time a demand against the State once rejected by it or by the Legislature unless such facts are presented to the board as in suits between individuals would furnish sufficient ground for granting a new trial. Any person interested, who is aggrieved by the disapproval of a claim by the board, may appeal from the decision to the Legislature of the State, by filing with the board a notice thereof, and upon the receipt of such notice the board must transmit the demand and all the papers accompanying the same, with a statement of the evidence taken before it, to the Legislature.

Bonds purchased by the board under the provisions of this section must be delivered to the State Treasurer, who shall keep them as a portion of said estates of deceased persons fund, and the interest upon such bonds shall be paid into the State School Fund and apportioned like other moneys employed for the support of common schools.

678. Whenever under the provisions of law the board of supervisors, trustees, common council, or other governing boards or bodies of any county, city or county, city or town, or school district of this State shall advertise the sale of bonds voted for any purpose, the clerk of such board, trustees, common council, or other governing board or body shall forthwith, by mail, postage prepaid, notify the State Board of Control and State Treasurer, at the capitol of such issuance and sale of bonds, and shall specify the purposes for which said bonds were voted, the amount of the total issue for each purpose, the denomination of each bond showing date of issuance and date of maturity, the rate of interest showing when and where payable, the assessed value of the property upon which such bonds are a lien and the total amount of other bonded indebtedness which is a lien upon said property.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

SACRAMENTO, March 21, 1911

To the Assembly of the State of California:

I send you herewith, without my approval, Assembly Bill No. 663, entitled "An Act to amend Section 531 of the Political Code, relating to the duties of the Superintendent of State Printing."

The bill amends the present law in two particulars. First, it gives to compositors, pressmen and bookbinders, steadily employed by the State Printer a monthly salary of one hundred and twenty-five (125) dollars, and next, instead of regulating the rate of wages of assistants by the rate paid in the city of Sacramento, the regulation is made by the rate paid for like work in the State of California.

The objection to the bill is that it establishes a system which may become pernicious. Those engaged in the particular occupations mentioned are paid by the day in private employment. The policy of the law heretofore has been to pay them in like fashion when employed by the State, and to give to those in the employment of the State the best wages like employees receive in private employment. If now we change this rule, disregard the wages paid by private enterprises and fix a flat rate to be paid by the State, we will have established a precedent which may hereafter grow into something of an abuse in those matters wherein the State is doing mechanically the same work as private individuals. The policy of all governmental institutions, I think, has ever been, where these governmental institutions mechanically perform work similar to that done by a private enterprise, to have employees paid in like fashion. This policy would be abrogated by the present bill. The State Printer informs me that the present bill would increase the expenses of his office about \$9,400 a year, and while this of course is an item to be considered, I do not make it as the main reason for my veto. The principal reason is as I have indicated, that the policy of the law in respect to the payment of those wages should not be abrogated.

Respectfully submitted

HIRAM W. JOHNSON,
Governor of California

The question being, "Shall the bill become a law notwithstanding the veto of the Governor?"

The roll was called, and veto sustained by the following vote:

AYES—None.

NOES—Messrs Beckett, Benedict, Bennink, Bliss, Bohnett, Brown, Cattell, Clark, Cogswell, Farwell, Fitzgerald, Flint, Gaylord, Gerdes, Griffin of Modesto, Griffiths, Guill, Harlan, Hayes, Held, Hinkle, Jasper, Joel, Judson, Kehoe, Lamb, Lynch, Lyon of San Francisco, Malone, Mendenhall, Mott, Mullally, Polsley, Preisker, Randall, Rodgers of San Francisco, Rogers of Alameda, Rosendale, Rutherford, Slater, Smith, Stevenot, Stuckenbruck, Sutherland, Tibbits, Walker, Wyllie, and Mr. Speaker—48.

Mechanics, materialmen, contractors, subcontractors, artisans, architects, machinists, builders, miners, teamsters, and draymen, and all persons and laborers of every class performing labor upon, or bestowing skill or other necessary services, or furnishing materials to be used or consumed in or furnishing appliances, teams and power contributing to the construction, alteration, addition to or repair, either in whole or in part, of any building, wharf, bridge, ditch, flume, aqueduct, well, tunnel, fence, machinery, railroad, wagon road or other structure, shall have a lien upon the property upon which they have bestowed labor or furnished materials, for the value of such labor done and materials furnished and for the value of the use of such appliances, teams or power, whether at the instance of the owner, or of any other person acting by his authority or under him, as contractor or otherwise, and every contractor, subcontractor, architect, builder or other person having charge of the construction, alteration, addition to or repair either in whole or in part of any building, or other improvement as aforesaid shall be held to be the agent of the owner for the purposes of this chapter.

Any person who performs labor in any mining claim or claims, or in or upon any real property worked as a mine, either in the development thereof or in working thereon by the subtractive process or furnishes materials to be used or consumed therein, has a lien upon the same and the works owned and used by the owners for milling or reducing the ores from the same, for the value of the work or labor done or materials furnished by each respectively, whether done or furnished at the instance of the owner of such mining claim or claims or real property worked as a mine, or his agent, and every contractor, subcontractor, superintendent or other person having charge of any mining or work or labor performed in and about such mining claim or claims or real property worked as a mine, either as lessee or under a working bond or contract thereon shall be held to be the agent of the owner for the purposes of this chapter.

The liens in this chapter provided for shall be direct liens, and shall in the case of all claimants be limited, as to amount, by the contract price agreed upon between the contractor and the owner; but said several liens shall not in any case exceed in amount the reasonable value of the labor done or material furnished, or both, for which the lien is claimed, nor the price agreed upon for the same between the claimant and the person by whom he was employed; nor in any case, where the claimant was employed by a contractor, or subcontractor, shall the lien extend to any labor or materials not embraced within or covered by the original contract between the contractor and the owner, or any modification thereof made by or with the consent of such owner, nor in any case shall such lien exceed the amount fixed by such contract and all modifications thereof. The original contract, and any modification thereof, shall be recorded in the office of the county recorder of the county, where the property is situated, and if so recorded before the commencement of the work, such recording shall be equivalent to the giving of actual notice by the owner to all persons performing work or furnishing materials thereunder. It shall be lawful for the owner to protect himself against any failure of the contractor to perform his contract and make full payment for all work done and materials furnished thereunder by exacting such bond or other security as he may deem satisfactory.

Sec. 2 Section 1184 of the Code of Civil Procedure is hereby amended to read as follows:

1184. Any of the persons mentioned in the preceding section, except the contractor, may at any time give to the owner a notice that they have performed labor or furnished materials, or both, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both, and any of said persons who shall on the written demand of the owner refuse to give such notice shall thereby deprive himself of the right to claim a lien under this chapter. Such notice may be given by delivering the same to said owner personally, or by leaving it at his residence or place of business with some person in charge, or by delivering it to his architect, or by leaving it at the latter's office with some person in charge. No such notice shall be invalid by reason of any defect in form, provided it is sufficient to inform the owner of the substantial matters herein provided for. Upon such notice being given it shall be lawful for the owner to withhold, and in the case of property which, for reasons of public policy or otherwise, are not subject to the liens in this chapter provided for, the owner or

person who contracted with the contractor, shall withhold from his contractor sufficient money due or that may become due to such contractor to answer such claim and any lien that may be filed therefor including the reasonable cost of any litigation thereunder.

1185. The land upon which any building, improvement, well or structure is constructed, together with a convenient space about the same, or so much as may be required for the convenient use and occupation thereof, to be determined by the court on rendering judgment, is also subject to the lien, if at the commencement of the work, or of the furnishing of the material for the same, the land belonged to the person who caused said building, improvement, well or structure to be constructed, altered or repaired, but if such person owned less than fee simple estate in such land, then only his interest therein is subject to such lien, except as provided in Section 192 of this Code.

Sec. 4. Section 1187 of the Code of Civil Procedure is hereby amended to read as follows:

1187. Every original contractor, claiming the benefit of this chapter, within sixty days after the completion of his contract, and every person save the original contractor claiming the benefit of this chapter, within thirty days after he has ceased to labor or has ceased to furnish materials, or both; or at his option, within thirty days after the completion of the original contract, if any, under which he was employed, must file for record with the county recorder of the county or city and county in which such property or some part thereof is situated a claim of lien containing a statement of his demand after deducting all just credits and offsets, with the name of the owner or reputed owner, if known, also the name of the person by whom he was employed, or to whom he furnished the materials, with a statement of the price if any agreed upon for the same and when payable, and of the work agreed to be done and when the same was to be done, if agreed upon, and also a description of the property to be charged with the lien, sufficient for identification, which claim must be verified by the oath of himself or of some other person. Any trivial imperfection in the said work, or in the completion of any contract by any lien claimant, or in the construction of any building, improvement or structure, or of the alteration, addition to, or repair thereof, shall not be deemed such a lack of completion as to prevent the filing of any lien, and, in all cases, any of the following shall be deemed equivalent to a completion for all the purposes of this chapter: the occupation or use of a building, improvement, or structure by the owner, or his representative; or the acceptance by said owner or said agent, of said building, improvement, or structure, or cessation from labor for thirty days upon any contract or upon any building, improvement or structure or the alteration, addition to, or repair thereof.

Sec. 6. Section 1192 of the Code of Civil Procedure is hereby amended to read as follows:

1192. Every building or other improvement or work mentioned in any of the preceding sections of this chapter constructed, altered or repaired upon any land with the knowledge of the owner or of any person having or claiming any estate therein, and the work or labor done or materials furnished mentioned in any of said sections with the knowledge of the owner or person having or claiming any estate in the land, shall be held to have been constructed, performed or furnished at the instance of such owner or person having or claiming any estate therein, and such interest owned or claimed shall be subject to any lien filed in accordance with the provisions of this chapter, unless such owner or person having or claiming any estate therein shall, within ten days after he shall have obtained knowledge of such construction, alteration or repair or work or labor, give notice that he will not be responsible for the same by posting a notice in writing to that effect in some conspicuous place upon the property, and shall also, within the same period, file for record a verified copy of said notice in the office of the county recorder of the said county in which said property or some part thereof is situated. Said notice shall contain a description of the property affected thereby sufficient for identification, with the name, and the nature of the title or interest of the person giving the same, said copy so recorded may be verified by anyone having a knowledge of the facts, on behalf of the owner or person for whose protection the notice is given.

No act done by such owner in compliance with any of the provisions of this chapter shall be held to be a prevention of the performance of any such contract by the contractor, or to have exonerated the sureties on such or any bond given for faithful performance, or for the payment of liens of persons performing labor or furnishing materials, or both; provided that such act was done in good faith and without design to injure or harass any one.

SEC. 8. Section 1194 of the Code of Civil Procedure is hereby amended to read as follows:

1194. Whenever on the sale of the property subject to any of the liens provided for in this chapter, under the judgment or decree of foreclosure of such lien, there is a deficiency of proceeds, judgment for the deficiency may be docketed against the party personally liable therefor in like manner and with like effect as in action for the foreclosure of mortgages.

SEC. 10. Section 1197 of the Code of Civil Procedure is hereby amended to read as follows:

1197. Nothing contained in this chapter shall be construed to impair or affect the right of any person to whom any debt may be due for work done or materials furnished to maintain a personal action to recover said debt against the person liable therefor; and the person bringing such personal action may take out an attachment therefor, notwithstanding his lien, and in his affidavit to procure an attachment need not state that his demand is not secured by a lien; but the judgment, if any, obtained by the plaintiff in such personal action shall not be construed to impair or merge any lien held by said plaintiff under this chapter; *provided*, only, that any money collected on said judgment shall be credited on the amount of such lien in any action brought to, enforce the same, in accordance with the provisions of this chapter.

SEC. 11. Section 1202 of the Code of Civil Procedure is hereby amended to read as follows:

1203. No mistake or errors in the statement of the demand, or of the amount of credits and offsets allowed or of the balance asserted to be due to claimant, nor in the description of the property against which the claim is filed, shall invalidate the lien, unless the court finds that such mistake or error in the statement of the demand, credits and offsets, or of the balance due, was made with the intent to defraud, or the court shall find that an innocent third party, without notice, direct or constructive, has since the claim was filed, become the bona fide owner of the property liened upon, and that the notice of claim was so deficient that it did not put the party upon further inquiry in any manner.

SEC. 13. Sections 1183a, 1200, and 1200a of the Code of Civil Procedure are hereby repealed.

SEC. 14. The provisions of this Act shall be liberally construed with a view to effect its purpose. They are not intended as a reenactment of the provisions of former statutes, with the policy heretofore impressed upon the same by the courts of

this State, but are intended to reverse that policy to the extent of making the liens provided for direct, and independent of any account of indebtedness between the owner and contractor, thereby making the policy of this State conform to that of Nevada and other Pacific coast states.

A resolution proposing to the people of the State of California an amendment to section twenty-three of article twelve of the Constitution of the State of California, to confer upon the Railroad Commission power and jurisdiction to regulate and control the business of furnishing certain commodities and performing certain services to or for the public.

The Legislature of the State of California, at its regular session, commencing on the second day of January one thousand nine hundred and eleven, two thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section twenty-three of article twelve of the Constitution of the State of California be amended so as to read as follows:

SEC 23. Every private corporation, and every individual or association of individuals, owning, operating, managing, or controlling any commercial railroad, interurban railroad, street railroad, canal, pipe line, plant or equipment, or any part of such railroad, canal, pipe line, plant or equipment within this State, for the transportation or conveyance of passengers, or express matter, or freight of any kind, including crude oil, or for the transmission of telephone or telegraph messages, or for the production, generation, transmission, delivery or furnishing of heat, light, water or power or for the furnishing of storage or wharfage facilities, either directly or indirectly, to or for the public, and every common carrier, is hereby declared to be a public utility subject to such control and regulation by the Railroad Commission as may be provided by the Legislature, and every class of private corporations, individuals, or associations of individuals hereafter declared by the Legislature to be public utilities shall likewise be subject to such control and regulation.

The Railroad Commission shall have and exercise such power and jurisdiction to supervise and regulate public utilities, in the State of California, and to fix the rates to be charged for commodities furnished, or services rendered by public utilities as shall be conferred upon it by the Legislature, and the right of the Legislature to confer powers upon the Railroad Commission respecting public utilities is hereby declared to be plenary and to be unlimited by any provision of this condition.

From and after the passage by the Legislature of laws conferring powers upon the Railroad Commission respecting public utilities, all powers respecting such public utilities vested in boards of supervisors, or municipal councils, or other governing bodies of the several counties, cities and counties, cities and towns, in this State, or in any commission created by law and existing at the time of the passage of such laws, shall cease so far as such powers shall conflict with the powers so conferred upon the Railroad Commission, *provided however* that this section shall not affect such powers of control over any public utility vested in any city and county, or incorporated town as, at an election to be held pursuant to laws to be passed hereafter by the Legislature, a majority of the electors of such city and county, or incorporated city or town, shall vote to retain, and until such election such powers shall continue unimpaired; but if the vote so taken shall not favor the continuation of such powers

they shall thereafter vest in the Railroad Commission as provided by law; and *provided, further*, that where any such city and county or incorporated city or town shall have elected to continue any powers respecting public utilities, it may, by vote of a majority of its electors, thereafter surrender such powers to the Railroad Commission in the manner to be prescribed by the Legislature; or if such municipal corporation shall have surrendered any powers to the Railroad Commission, it may, by like vote, thereafter reinvest itself with such power.

Nothing in this section shall be construed as a limitation upon any power conferred upon the Railroad Commission by any provision of this Constitution now existing or adopted concurrently herewith.

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received and read:

SACRAMENTO, CAL., March 23, 1911.

To the Assembly of the State of California:

I return you herewith, without my approval, Assembly Bill No. 208, entitled, "An Act to authorize the personal representative of James Touhey, deceased, to bring suit against the State of California."

The matter in another form, that is, for the payment of the claim concerning which it is now desired that action may be brought, has been before three preceding legislatures, and the Acts presented for the payment of the claim at these preceding legislatures have not become laws. Upon the face of the bill it is obvious that the major part of the claim has long since become barred by the statute of limitations, and the Act is designed, doubtless, to remove that bar, so that the claimants may maintain their action. If no right of action had accrued prior to this time, I would be inclined to sign the bill and give to the claimants the right to sue the State, but by the Act of the Legislature approved February 28, 1893, the claimants mentioned in this bill have had for many years the right of action upon their claim. They have not seen fit to avail themselves of that right, and after this lapse of time, their position ought not to be improved by legislative enactment.

For the reasons given, I have vetoed the bill.

Respectfully submitted,

HIRAM W JOHNSON,
Governor of California

On motion of Mr. Bliss, consideration of message ordered to unfinished business.

Also:

SACRAMENTO, CAL., March 23, 1911.

To the Assembly of the State of California:

I return you herein, without my approval, Assembly Bill No. 718, entitled, "An Act to protect fraternal, benevolent and secret societies from fraud or unauthorized use of their ritual or work, and to punish for violation thereof."

This bill provides that it shall be unlawful for any one not a member of a secret society to have in his possession any book, or writing, purporting to be an exposé or statement of the secret or unwritten work, and that it shall be unlawful for any one not a member of a secret society to print, or to publish, or to offer for sale any book or writing purporting to be an exposé or statement of the secret or unwritten work of any secret society.

I have vetoed this bill for various reasons:

First, it contravenes Section 9 of Article I of the Constitution, that every citizen may freely speak, write and publish his sentiments on all subjects, being responsible for the abuse of that right, and no law shall be passed to restrain or abridge the liberty of speech or of the press.

Secondly, the bill is wholly indefinite in making it a crime to publish or have any writing purporting to be an exposé or statement of the secret work of any society. What might purport to be such a statement, it is difficult to understand.

Thirdly, there may be secret societies whose work ought to be exposed, and, of course, the bill, to be general in character, makes no discrimination between good and bad secret societies. There have, in the past, been many secret societies whose rituals, oaths and the like were inimical to the government and subversive to society. I would not make it a crime to expose the secrets of such organizations.

Fourthly, the law would be difficult if not impossible of execution. There might be a book or writing purporting to give the secrets of some society, and to convict of the crime, it would have to be held either that the face of the work itself furnished the evidence, which alone would be admissible to prove the offense, or by comparison with the real secret work or by oral declaration of that work, in conjunction with the publication purporting to disclose the secrets, the proof would have to be made. The former method of demonstration would be held legally insufficient and the latter method would do the very thing that the bill is designed to prevent.

Lastly, the policy of the law in endeavoring to protect something about which the law can know nothing, is one of which I do not approve.

Respectfully submitted

HIRAM W. JOHNSON,
Governor of California.

On motion of Mr. Cronin, consideration of message ordered to unfinished business.

SEC. 77 Whenever any railroad track or tracks of any description exist upon the street or streets upon which the city council of any city has ordered an improvement to be made, and has excepted therefrom the portions used by the track, between the rails and for two feet on each side thereof, and between the tracks if there is more than one, the said order, unless said city council shall by resolution theretofore passed have declared the contrary, shall be deemed to be and constitute a requirement that the person or company having said railroad track or tracks thereon shall improve the said portion with improvements similar in all respects to, with the same materials, under the same specifications and superintendence, and to the like inspection and satisfaction as those ordered to be performed by said order ordering the work; *provided, however*, that the city council may by ordinance require increased depth of concrete between, to the full depth of, or under the ties, or both, where and whenever the city council shall, in its judgment decide that this method of construction is necessary. The city council may also require by ordinance or otherwise, any person or company aforesaid, to pave alongside of and contiguous to its rails with special types of brick or paving blocks. The resolution of intention and notice of proposed improvement shall be construed and are hereby declared to be notice to said person or company of the intention to order the same. Thereupon it shall be the duty of said person or company having such track or tracks on such streets or street to notify in writing the superintendent of streets if such person or company elects to enter upon the direct performance of such work at its own charge and expense: said notice must be delivered to the superintendent of streets within ten days after the first publication of notice of award of contract. The omission or neglect to make such election shall be construed as constituting the superintendent of streets the agent of the owner of said track or tracks, with authority to enter into a contract made in accordance with the provisions of this section for making the said improvements. Said superintendent of streets shall advertise for bids for the improvement of said portions of the street or streets lying between the rails and for two feet on each side thereof, and between the tracks, if there be more than one. It shall be the duty of said city council to award the contract for the making of said improvements to the lowest regular responsible bidder. Such bidding and awarding of contracts shall be made in the same manner hereinbefore provided for the awarding of contracts for improvements excepting that no notice of award shall be published. Immediately upon the award, the superintendent of streets shall enter into a contract with the person to whom said contract was awarded for the making of said improvement or improvements upon the portions of the street or streets described in said notice inviting bids, and at the price stated in said bid. The contractor shall execute bonds in the manner required by section fifteen of this Act. Upon the completion of the work and its acceptance, the street superintendent shall make a certificate of such completion together with a statement of the amount due under the terms of said contract for the performance of said work. Such certificate shall be countersigned by the mayor of said city, and shall be recorded in the office of said superintendent of streets. The contractor thereupon shall be entitled to payment of the full amount of said contract price, and the recording of such certificate shall be sufficient notice to the owner of such track or tracks that said contract price is due and payable. In the event that such amount is not paid within thirty days from the date of the recording of said certificate, the contractor may file a sworn statement to that effect with the superintendent of streets, who shall record the same in his office in the book in which the certificate of acceptance has been recorded. Said contractor shall thereupon have a cause of action against said person or company owning said tracks for the amount of said contract, together with a reasonable attorney's fee, and shall also have as a security for the recovery of such amount, a first lien upon the track and franchises of said railroad, between whose rails or tracks the said work has been performed, contained within the corporate limits of the said city. In such suit, the certificate of the superintendent of streets, hereinbefore mentioned, shall be and constitute prima facie evidence of the regularity of all proceedings, and of the right of the contractor to recover judgment against said person or company. Execution may be taken out upon the entry of judgment, and levied upon any property of said person or company subject to execution. In the event that said person or company shall file the written election to enter upon the direct performance of such work at

its own cost and expense, no further proceedings shall be taken in the matter unless such person or company neglects or fails for thirty days, or for such further time as the city council may grant, to make said improvement. In the event that the improvement of the portions of the street or streets above described between the rails and for two feet on each side thereof, and between the tracks, if there be more than one, shall not be made with diligence, as herein provided or in all respects similar to the improvement of the rest of the street, or with the same materials or under the same specifications, and to the satisfaction of the superintendent of streets, the city council of said city may, by resolution entered in its minutes, prescribe such terms and conditions as to it may seem fit and proper before permitting the said person or company to continue with the said improvement. If the said person or company shall, after three days' notice of the adoption of said resolution, fail to comply with the terms and conditions so prescribed the city council may declare said person or company to have forfeited its privilege of performing such work under its own direction. Whereupon the street superintendent shall advertise for bids for the performance of such work, or such portion thereof as may remain uncompleted, and the contract therefor shall be awarded and entered into in the same manner hereinbefore provided for the awarding and execution of contracts where said person or company has not elected to make the improvements under its own directions, and upon the completion of the improvement, the contractor to whom such contract may be awarded, or his assigns, shall be entitled to a certificate from the street superintendent similar to that hereinabove provided for, and shall have the right to collect from said person or company by suit the amount specified in said certificate in all respects the same as hereinbefore provided where the contract is let for such improvement in the first instance. The city council may, by ordinance, prescribe and enforce such additional regulations and penalties as it may deem necessary to compel the improvement as herein provided of any portion or portions of any such street or streets so occupied by any such railroad track or tracks.

They shall select each year the place which in view of all the circumstances they deem the best and fittest for the location and holding of such annual fair, exhibition or exposition; *provided*, that in case more than one place in each district is fitted for the holding of such annual fair, they shall take their turn alphabetically, and the directors shall hold the fairs in that order. No place shall be selected by such directors as the place for holding such fair, exhibition or exposition, unless and until adequate and sufficient grounds and buildings at such place are given or leased, or secured to the district agricultural association of that district, free of charge or cost, if such district association has been organized. If it has not been organized at the time of such selection, the gift or lease of such buildings and grounds must be secured to be given and bound to be given to such district association free of charge or cost as soon as the same shall become organized. As soon as said directors shall have determined upon the place each year in such district which they so deem best for the holding of such fair, exhibition or exposition, and shall have secured free of charge to the agricultural association for said district the gift or lease of adequate and sufficient buildings and grounds, they shall thereupon designate said place as the place where, in said district, the agricultural association organized therein and therefor shall hold its annual fair, exhibition or exposition, and shall immediately notify the Governor of such selection and designation.

SEC 11 All sums of money appropriated by the State for the support of the district agricultural associations herein provided for shall be paid to said associations and collected by them in the same manner in which sums now provided for the support of the State Board of Agriculture, or State Agricultural Society, are paid to and collected by it.

MESSAGE FROM THE GOVERNOR

The following message from the Governor was received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 25, 1911.

To the Assembly of the State of California:

I return you herewith, without my approval, Assembly Bill No. 25, entitled "An Act to add a new section to the Penal Code to be known as section three hundred and ninety-seven a thereof, and regulating the business of selling spirituous, malt, fermented or vinous liquors or any admixture thereof in less quantity than one quart at a time, when the same is sold to be consumed upon the premises where sold; and providing the punishment for the violation thereof."

The bill provides that every person, who, either as principal, or agent, or servant, or employee sells liquor in quantities less than a quart when the same is to be consumed upon the premises where sold, and those who aid, assist, or abet in any manner in such sale, without a license having been procured from the proper authorities, are guilty of a felony. In other words, the Act makes the selling of liquor without a license a felony, and applies to every principal, agent, servant, or employee, and every person aiding, assisting or abetting. The punishment then prescribed for this felony is imprisonment in the county jail or state prison for not less than thirty days or more than a year, or by a fine not less than \$500 or more than \$1,000, or both such fine and imprisonment.

In the first place, the offense is one for local regulation, and in the second place, it ought not to be made a felony. If made a felony, it seems to me obvious that no conviction ever could be secured, and that the Act, while apparently designed to prevent the sale of liquor without a license, would be practically nugatory.

Again, the Act by its terms applies only to those localities where licenses are required for the selling of liquor. In those localities which prohibit the sale of liquor, the sale in contravention of law would be merely a misdemeanor. Practically the same offense, therefore, would be described in one locality as a felony and in another as a mere misdemeanor. Apart from the latter objection, however, I do not think it has ever been the policy of the law to make a state prison offense of a sale of anything without a license, and I do not believe that we should make the particular offense described in the bill a felony.

For the reasons given I have vetoed the bill.

Respectfully submitted.

HIRAM W. JOHNSON,
Governor of California.

The question being put, "Shall the bill become a law notwithstanding the veto of the Governor?"

The roll was called, and the veto sustained by the following vote:

AYES—Messrs. Mullally and Polsley—2

NOES—Messrs. Beckett, Benedict, Benmink, Bishop, Bliss, Bohnett, Brown, Butler, Cattell, Chandler, Cogswell, Crosby, Cunningham, Farwell, Flint, Gaylord, Guill, Hall, Hamilton, Harlan, Hayes, Huckle, Hunsbaw, Judson, Lamb, Lyon of Los Angeles, Lyon of San Francisco, Maher, Malone, McDonald, McGowen, Mendenhall, Randall, Rosendale, Rutherford, Schmitt, Slater, Stevenot, Telfer, Tibbits, Walsh, Wilson, and Young—43.

SENATE CONSTITUTIONAL AMENDMENT No. 20

A resolution to propose to the people of the State of California an amendment to the Constitution of the State of California, amending section eight of article eleven of said Constitution, relating to charters of cities, and amendments thereto.

The Legislature of the State of California, at its regular session commencing on the second day of January, in the year one thousand nine hundred and eleven, two thirds of all the members elected to each of the houses of said Legislature voting in favor thereof, hereby propose that section eight of article eleven of the Constitution of the State of California be amended so as to read as follows:

Section 8. Any city containing a population of more than three thousand five hundred inhabitants as ascertained and established by the last preceding census, taken under the direction of the Congress of the United States, or by a census of said city, taken subsequent to the aforesaid census under the direction of the legislative body thereof, under laws authorizing the taking of the census of cities, may frame a charter for its own government, consistent with, and subject to, the constitution (or, having framed such a charter, may frame a new one), by causing a board of fifteen freeholders, who shall have been, for at least five years, qualified electors thereof, to be elected by the qualified electors of said city, at a general or special municipal election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by a vote of two thirds of all the members of the council, or other legislative body, of such city, declaring that the public interest requires the election of such board for the purpose of preparing and proposing a charter for said city, or in pursuance of a petition of qualified electors of said city, as hereinafter provided. Such petition, signed by fifteen per centum of the qualified electors of said city computed upon the total number of votes cast therein for all candidates for governor at the last preceding general election at which a governor was elected, praying for the election of a board of fifteen freeholders to prepare and propose a charter for said city, may be filed in the office of the city clerk thereof. It shall be the duty of said city clerk, within twenty days after the filing of said petition, to examine the same and to ascertain from the record of the registration of electors of the county, showing the registration of electors of said city, whether the petition is signed by the requisite number of qualified electors of such city. If required by said clerk, the council, or other legislative body, of said city shall authorize him to employ persons specially to assist him in the work of examining such petition, and shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the result thereof, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall present the said petition to said council, or other legislative body, at its next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said council, or other legislative body, shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said council, or other legislative body; *provided*, that if a general municipal election shall occur in said city not less than twenty days, nor more than sixty days, after the adoption of the ordinance aforesaid, or the presentation of said petition to said council, or other legislative body, said board of freeholders may be elected at such general municipal election. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general laws for the nomination by petition of electors of candidates for public offices to be voted for at general elections.

It shall be the duty of said board of freeholders, within one hundred and twenty days after the result of such election shall have been declared by said council, or other legislative body, to prepare and propose a charter for said city, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the city clerk of said city, and the other in the office of the county recorder of the county in which said city is situated. Said council, or other legislative body, shall, thereupon, cause said proposed charter to be published, for at least ten times, in a daily newspaper of general circulation, printed, published and circulated in said city; *provided*, that in any city where no such daily newspaper is printed, published and circulated, such proposed charter shall be published, for at least three times, in at least one weekly newspaper of general circulation, printed, published and circulated in said city, and, in any event, the first publication of such proposed charter shall be made within fifteen days after the filing of a copy thereof, as aforesaid, in the office of the city clerk. Such proposed charter shall be submitted by said council, or other legislative body, to the qualified electors of said city, at a special election held not less than twenty days, nor more than forty days, after the completion of such publication; *provided*, that if a general municipal election shall occur in said city not less than twenty days nor more than forty days after the completion of such

publication, then such proposed charter may be so submitted at such general election. If a majority of such qualified electors voting thereon at such general or special election shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or it may be submitted to the Legislature in extraordinary session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such city, or if such city be consolidated with a county, then of such city and county, and shall become the organic law thereof, and supersede any existing charter (whether framed under the provisions of this section of the constitution or not), and all amendments thereof, and all laws inconsistent with such charter. A copy of such charter, certified by the mayor, or other chief executive officer of said city, and authenticated under the seal of such city, setting forth the submission of such charter to the electors of said city, and its ratification by them, shall, after the approval of such charter by the Legislature, be made in duplicate and deposited, one in the office of the Secretary of State and the other, after being recorded in the office of the recorder of the county in which such city is situated, shall be deposited in the archives of the city, and thereafter all courts shall take judicial notice of said charter.

The charter, so ratified, may be amended by proposals thereto submitted by the council, or other legislative body of the city, to the qualified electors thereof at a general or special municipal election held at intervals of not less than two years (except that charter amendments may be submitted at a general municipal election at an interval of less than two years after the last election on charter amendments; *provided*, that no other election on charter amendments has been held since the beginning of the last regular session of the State Legislature or shall be held prior to the next regular session of the State Legislature), and held not less than twenty days, nor more than forty days, after the completion of the publication of such proposals for ten times in a daily newspaper of general circulation, printed, published and circulated in said city, or for three times in at least one weekly newspaper of general circulation, printed, published and circulated in said city, if there be no such daily newspaper. If a majority of such qualified electors voting thereon at such general or special election shall vote in favor of any such proposed amendment or amendments, or any amendment or amendments proposed by petition, as hereinafter provided, such amendment or amendments shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or may be submitted to the Legislature in extraordinary session, for approval or rejection as a whole, without power of alteration or amendment, and if approved by the Legislature, as herein provided for the approval of the charter, such charter shall be amended accordingly. A copy of such amendment or amendments shall, after the approval thereof by the Legislature, be made in duplicate, and shall be authenticated, certified, recorded and filed as herein provided for the charter, and with like force and effect. Whenever a petition signed by fifteen per centum of the qualified electors of the city, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, is filed in the office of the city clerk of said city, petitioning the council or other legislative body thereof, to submit any proposed amendment or amendments to the charter of such city, which amendment or amendments shall be set forth in full in such petition, to the qualified electors thereof, such petition shall forthwith be examined and certified by the city clerk, and if signed by the requisite number of qualified electors of said city, it shall be presented to the said council, or other legislative body, by the said city clerk, as hereinbefore provided for petitions for the election of boards of freeholders. Upon the presentation of said petition to said council, or other legislative body, said council or other legislative body, must submit the amendment or amendments set forth in said petition to the qualified electors of said city, at a general or special municipal election, held not less than twenty nor more than forty days after the completion of the publication of such proposed amendment or amendments, in the same manner as hereinbefore provided in the case of the submission of any proposed amendment or amendments to such charter, proposed and submitted by the council, or other legislative body. The first publication of any proposed amendment or amendments to such charter so proposed by petition shall be made within fifteen days after the aforesaid presentation of said petition to said council, or other legislative body. In submitting any such charter, amendment or amendments thereto, any alternative article or proposition may be presented for the choice of the electors, and may be voted on separately without prejudice to others.

Every special election held in any city under the provisions of this section, for the election of a board of freeholders, or for the submission of any proposed charter or any amendment or amendments thereto shall be called by the council, or other legislative body thereof, by ordinance, which shall specify the purpose and time of such election, and shall establish the election precincts and designate the polling places therein, and the names of the election officers for each such precinct. Such

ordinance shall, prior to such election, be published five times in a daily newspaper, or twice in a weekly newspaper, if there be no such daily newspaper printed, published and circulated in said city. Such election shall be held and conducted, the returns thereof canvassed, and the result thereof declared by the council, or other legislative body of such city, in the manner that is now or may be hereafter provided by general law for such elections in the particulars wherein such provision is now or may hereafter be made therefor, and in all other respects in the manner provided by law for general municipal elections, in so far as the same may be applicable thereto.

Whenever any board of freeholders shall be elected, or any such proposed charter or amendment or amendments thereto shall be submitted at a general municipal election, the laws governing the election of city officers or the submission of propositions to the vote of electors, shall be followed in so far as the same may be applicable thereto and not inconsistent herewith.

It shall be competent in any charter framed by any city under the authority given in this section, or by amendment to such charter, to provide, in addition to those provisions allowed by this constitution and by the laws of the State, for the establishment of a borough system of government for the whole or any part of the territory of such city, by which one or more districts may be created therein, which districts shall be known as boroughs, and which shall exercise such special municipal powers as may be granted by such charter, and for the organization, regulation, government and jurisdiction of such boroughs.

All the provisions of this section relating to the city clerk shall, in any city and county, be deemed to relate to the clerk of the legislative body thereof.

COMMITTEE SUBSTITUTE FOR SENATE CONSTITUTIONAL AMENDMENT No. 5

A resolution proposing to the people of the State of California an amendment to the Constitution of the State of California, by adding a new section to Article XI thereof to be known and designated as section seven and one half of said Article XI of the Constitution of the State of California, relating to charters of counties and amendments to such charters, and to the surrender thereof.

The Legislature of the State of California, at its thirty-ninth regular session, commencing on the second day of January, 1911, two thirds of all the members elected to each of the two houses of said Legislature voting therefor, hereby proposes that a new section be added to Article XI of the Constitution of the State of California, to be known and designated as section seven and one half of Article XI of the Constitution of the State of California, and to read as follows:

Section 7½. Any county may frame a charter for its own government consistent with and subject to the constitution (or, having framed such a charter, may frame a new one), relating to the matters hereinafter in this section specified, and none other, by causing a board of fifteen freeholders, who have been for at least five years qualified electors thereof, to be elected by the qualified electors of said county at a

general or special election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by the vote of three fifths of all the members of the board of supervisors of such county, declaring that the public interest requires the election of such board for the purpose of preparing and proposing a charter for said county, or in pursuance of a petition of qualified electors of said county as hereinafter provided. Such petition, signed by fifteen per centum of the qualified electors of said county, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, praying for the election of a board of fifteen freeholders to prepare and propose a charter for said county, may be filed in the office of the county clerk. It shall be the duty of said county clerk, within twenty days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of electors of the county, whether said petition is signed by the requisite number of qualified electors. If required by said clerk, the board of supervisors shall authorize him to employ persons specially to assist him in the work of examining such petition, and shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the result thereof, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors, *provided*, that if a general election shall occur in said county not less than twenty days nor more than sixty days after the adoption of the ordinance aforesaid, or such presentation of said petition to said board of supervisors, said board of freeholders may be elected at such general election. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination by petition of electors, of candidates for county offices, to be voted for at general elections.

It shall be the duty of said board of freeholders, within one hundred and twenty days after the result of such election shall have been declared by said board of supervisors, to prepare and propose a charter for said county, which shall be signed in duplicate by the members of said board of freeholders, or a majority of them, and be filed, one copy in the office of the county clerk of said county and the other in the office of the county recorder thereof. Said board of supervisors shall thereupon cause said proposed charter to be published for at least ten times in a daily newspaper of general circulation, printed, published and circulated in said county; *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published for at least three times in at least one weekly newspaper, of general circulation, printed, published and circulated in such county, *and provided*, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county, and the first publication or the posting of such proposed charter shall be made within fifteen days after the filing of a copy thereof, as aforesaid, in the office of the county clerk. Said proposed charter shall be submitted by said board of supervisors to the qualified electors of said county at a special election held not less than thirty days nor more than sixty days after the completion of such publication, or after such posting, *provided*, that if a general election shall occur in said county not less than thirty days nor more than sixty days after the completion of such publication, or after such posting, then such proposed charter may be so submitted at such general election. If a majority of said qualified electors voting thereon at such general or special election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or it may be submitted to the Legislature in extraordinary session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such county and shall become the organic law thereof relative to the matters therein provided, and supersede any existing charter framed under the provisions of this section, and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to the matters provided in such charter. A copy of such charter, certified and authenticated by the chairman and clerk of the board of supervisors under the seal of said board and attested by the county clerk of said county, setting forth the submission of such charter to the electors of said county, and its ratification by them, shall, after the approval of such charter by the Legislature, be made in duplicate, and filed, one in the office of the Secretary of State and the other, after being recorded in the office of the recorder of said county, shall be filed in the office of the county clerk thereof, and thereafter all courts shall take judicial notice of said charter.

The charter, so ratified, may be amended by proposals therefor submitted by the board of supervisors of the county to the qualified electors thereof at a general or special election held not less than thirty days nor more than sixty days after the publication of such proposals for ten times in a daily newspaper of general circulation, printed, published and circulated in said county: *provided*, that in any county where no such daily newspaper is printed, published and circulated, such proposed charter shall be published for at least three times in at least one weekly newspaper of general circulation, printed, published and circulated in such county, *provided*, that in any county where neither such daily nor such weekly newspaper is printed, published and circulated, a copy of such proposed charter shall be posted by the county clerk in three public places in said county, and on or near the entrance to at least one public schoolhouse in each school district in said county. If a majority of such qualified electors voting thereon, at such general or special election, shall vote in favor of any such proposed amendment or amendments, or any amendment or amendments proposed by petition as hereinafter provided, such amendment or amendments shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in regular session, otherwise at its next regular session, or may be submitted to the Legislature in extraordinary session, for approval or rejection as a whole, without power of alteration or amendment, and if approved by the Legislature, as herein provided for the approval of the charter, such charter shall be amended accordingly. A copy of such amendment or amendments shall, after the approval thereof by the Legislature, be made in duplicate, and shall be authenticated, certified, recorded and filed as herein provided for the charter, and with like force and effect. Whenever a petition signed by ten per centum of the qualified electors of any county, computed upon the total number of votes cast in said county for all candidates for Governor at the last general election, at which a Governor was elected, is filed in the office of the county clerk of said county, petitioning the board of supervisors thereof to submit any proposed amendment or amendments to the charter of such county, which amendment or amendments shall be set forth in full in such petition, to the qualified electors thereof, such petition shall forthwith be examined and certified by the county clerk, and if signed by the requisite number of qualified electors of such county, shall be presented to the said board of supervisors, by the said county clerk, as hereinbefore provided for petitions for the election of boards of freeholders. Every special election held under the provisions of this section for the election of boards of freeholders or for the submission of proposed charters or any amendment or amendments thereto, shall be called by the board of supervisors, by ordinance, which shall specify the purpose and time of such election and shall establish the election precincts and designate the polling places therein, and the names of the election officers for each such precinct. Such ordinance, prior to such election, shall be published five times in a daily newspaper or twice in a weekly newspaper, if there be no such daily newspaper, printed, published and circulated in said county; *provided*, that if no such daily or weekly newspaper be printed or published in such county, then a copy of such ordinance shall be posted by the county clerk in three public places in such county and in or near the entrance to at least one public school house in each school district therein. Whenever boards of freeholders shall be elected, or any such proposed charter, or amendment or amendments thereto, submitted at a general election, the general laws applicable to the election of county officers and the submission of propositions to the vote of electors, shall be followed in so far as the same may be applicable thereto.

It shall be competent in all charters framed under the authority given by this section to provide, in addition to any other provisions allowable by this Constitution, and the same shall provide, for the following matters:

3. For the number of justices of the peace and constables for each township, or for the number of such judges and other officers of such inferior courts as may be provided by the Constitution or general law, for the election or appointment of said officers, for the times at which and the terms for which said officers shall be elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors, and, if appointed, for the manner of their appointment, and

4. For the powers and duties of boards of supervisors and all other county officers, for their removal and for the consolidation and segregation of county offices, and for the manner of filling all vacancies occurring therein: *provided*, that the provisions of such charters relating to the powers and duties of boards of supervisors and all other county officers shall be subject to and controlled by general laws, and

5. For the fixing and regulation by boards of supervisors, by ordinance, of the appointment and number of assistants, deputies, clerks, attachés and other persons to be employed, from time to time, in the several offices of the county, and for the prescribing and regulating by such boards of the powers, duties, qualifications and compensation of such persons, the times at which, and the terms for which they shall be appointed, and the manner of their appointment and removal, and

6. For the compensation of such fish and game wardens, probation and other officers as may be provided by general law, or for the fixing of such compensation by boards of supervisors.

All elective officers of counties, and of townships, of road districts and of highway construction divisions therein, shall be nominated and elected in the manner provided by general laws for the nomination and election of such officers.

All charters framed under the authority given by this section, in addition to the matters herein above specified, may provide as follows:

For offices other than those required by the Constitution and laws of the State, or for the creation of any or all of such offices by boards of supervisors, for the election or appointment of persons to fill such offices, for the manner of such appointment, for the times at which and the terms for which such persons shall be so elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors.

For offices hereafter created by this Constitution or by general law, for the election or appointment of persons to fill such offices, for the manner of such appointment, for the times at which and the terms for which such persons shall be so elected or appointed, and for their compensation, or for the fixing of such compensation by boards of supervisors.

For the formation, in such counties, of road districts for the care, maintenance, repair, inspection and supervision only of roads, highways and bridges; and for the formation, in such counties, of highway construction divisions for the construction only of roads, highways and bridges, for the inclusion in any such district or division, of the whole or any part of any incorporated city or town, upon ordinance passed by such incorporated city or town authorizing the same, and upon the assent to such inclusion by a majority of the qualified electors of such incorporated city or town or portion thereof, proposed to be so included, at an election held for that purpose for the organization, government, powers and jurisdiction of such districts and divisions, and for raising revenue therein, for such purposes by taxation, upon the assent of a majority of the qualified electors of such districts or divisions, voting at an election to be held for that purpose: for the incurring of indebtedness therefor by such counties, districts or divisions for such purposes respectively, by the issuance and sale, by the counties, of bonds of such counties, districts or divisions, and the expenditure of the proceeds of the sale of such bonds, and for levying and collecting taxes against the property of the counties, districts or divisions, as the case may be, for the payment of the principal and interest of such indebtedness at maturity: *provided*, that any such indebtedness shall not be incurred without the assent of two thirds of the qualified electors of the county, district or division, as the case may be, voting at an election to be held for that purpose, nor unless before or at the time of incurring such indebtedness provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also for a sinking fund for the payment of the principal thereof on or before maturity, which shall not exceed forty years from the time of contracting the same, and the procedure for voting, issuing and selling such bonds shall, except in so far as the same shall be prescribed in such charters, conform to general laws for the authorizing and incurring by counties of bonded indebtedness, so far as applicable, *provided, further*, that provisions in such charters for the construction, care, maintenance, repair, inspection and supervision of roads, highways and bridges for which and from the State is granted, shall be subject to such regulations and conditions as may be imposed by the Legislature.

Whenever any county has framed and adopted a charter, and the same shall have

been approved by the Legislature, as herein provided, the general laws adopted by the Legislature in pursuance of sections four and five of this article shall, as to such county, be superseded by said charter as to matters for which, under this section, it is competent to make provision in such charter, and for which provision is made therein, except as herein otherwise expressly provided, and except that any such charter shall not affect the tenure of office of the elective officers of the county, or of any district, township or division thereof, in office at the time such charter goes into effect, and such officers shall continue to hold their respective offices until the expiration of the term for which they shall have been elected, unless sooner removed in the manner provided by law.

SENATE JOINT RESOLUTION NO. 27

Relative to requesting Secretary of Interior to confirm selections of land to the State of California.

WHEREAS, Applications have been made by the State of California, through the United States General Land Office, to the Secretary of the Interior for approximately three hundred thousand acres of indemnity school lands, which applications are still pending unexamined and unapproved, and

WHEREAS, It is admitted by the Secretary of the Interior that the State of California has complied with all requirements of law and with all rules and regulations

of the United States General Land Office and of the Secretary of the Interior relating thereto; and

WHEREAS, Notwithstanding the larger portion of these applications have been pending for many years, it is represented by the Secretary of the Interior that such applications have not been approved, for the reason that the clerical force at his disposal has been insufficient to make the required examinations, and

WHEREAS, The United State Central Land Office, in November, 1910, determined to make an examination in the field of all lands so applied for before approving the same, and the work of such examination in the field has not yet been commenced; and

WHEREAS, The failure to approve these selections has prevented the state and the citizens thereof from making any beneficial use of the lands so withheld and has resulted in the annual loss of many thousands of dollars in taxes; and

WHEREAS, The State of California having in all things complied with the law and with the rules and regulations of the United States General Land Office, and being admittedly entitled to action thereon by the Federal Government, the continued delay is unwarranted and is manifestly unjust to the State. Therefore, be it

Resolved by the Senate and Assembly, jointly. That we respectfully urge the honorable Secretary of the Interior that such action be taken by his department as shall result in an immediate examination and an early determination of the applications made by California for approximately three hundred thousand acres of indemnity school lands now pending in the United States General Land Office;

Resolved. That our Senators be instructed and our Representatives in Congress be requested to use all honorable means necessary and appropriate to secure a compliance by the honorable Secretary of the Interior with the foregoing resolution.

Resolved. That the Governor of California be, and he is hereby requested, to transmit a certified copy of these resolutions to the honorable Secretary of the Interior and to each of our Senators and Representatives in Congress.

READING OF THE JOURNAL.

During the reading of the Journal, on motion of Mr. Walsh, its further reading was dispensed with.

In accordance with resolution previously adopted, the following was ordered printed in the Journal:

STATEMENT OF GOVERNOR HIRAM W. JOHNSON, RELATIVE TO ASSEMBLY BILL
NO 248

The bill prescribing an eight-hour day for women comes to me as an entirety. I must either accept it as a whole or reject it as a whole. I can not modify or amend it. I have listened to oral arguments and have received many written arguments both for and against the measure. Independently, the question has been thoroughly investigated, and I have before me the reports submitted upon legislation of this character not only in this country, but in France, Germany, Switzerland, and England. Beyond this, some investigation has been made by my office among those who will be most directly affected by the law. While a less drastic and more elastic measure might have been preferable, and while, personally, I might have desired that legislation upon the subject should be gradual, still, the advantages of the present bill outweigh the disadvantages. Strong men, by unity of action, have obtained for themselves an eight-hour day. Shall we require greater hours of labor for our women? As long ago as 1872, it was enacted by Section 3244 of the Political Code, that eight hours of labor should constitute a day's work, and it was likewise by the following section, provided that eight hours' labor should constitute a legal day's work in all cases where the same was performed under the authority of the state, or of any municipal corporation within the state; and our law has gone to the extent of requiring that a stipulation to that effect must be made a part of all contracts in which the state or any municipal corporation is a party. The policy, therefore, of the law in this state, is of long standing; and while the sections quoted refer, of course, to public work, they established what has been the set policy of California for more than forty years, and that is that eight hours shall constitute a day's labor. The limitation of the hours of labor to eight is, therefore, by no means new, but that principle is firmly, and, doubtless, irrevocably established in California.

The argument against the eight-hour day for women is purely economic. It is asserted that it will work hardship upon various business enterprises; that these enterprises will have to close, and that financial disaster will follow. This has been the argument ever advanced against legislation of this sort and even against legislation designed for the protection of the public generally, such as pure food laws. When the first shorter hour law was adopted in England, as long ago as 1837, Nas-

sau William Senior, one of the leading political economists of his time, insisted that the reduction of hours of labor would eliminate profit and bring disaster upon employer and employee alike. The English employers, then, with the utmost vehemence, protested. None of the ills they prophesied occurred. There are many of us who remember the child labor laws and how at the time of the enactment of the first of these laws in our State many of our reputable business men protested with earnestness and apparent sincerity, asserting that they could not compete with their rivals and that the enactment of such laws meant their ruin. The laws were enacted, and business continued just the same. Pure food laws enacted for the benefit of the public, the protection of its health in another way than that sought in the present Act, were for years resisted upon the theory of the outrage that would be done business by their enactment, and the great losses that would be entailed. The laws went into effect and business continued just the same. Two years ago the Legislature enacted a law limiting the hours of men working in mines in this State to eight (Statutes 1909, page 279). Many mine owners appeared then and insisted that if the law went into effect they would have to close down their mines and that the industry upon which originally rested the fame and romance of California would be utterly destroyed. The law went into effect, and to-day the same mines are running with the same profit, and the same employees.

The hours of labor of men, by the same Act, in smelters and in other institutions for the refining of ores and metals, were limited to eight. The smelters still run, additional ones are being built, and the subject of smelting has become so important, even with men's hours limited to eight, that it has engrossed a considerable portion of the time of one of the houses of the Legislature.

The economic argument also fails because experience has shown that productivity will not be materially decreased under an eight-hour law. The report of the New York Bureau of Labor Statistics, 1900, states: "Certain facts appear with distinctiveness; one of which is that the cotton industries of Massachusetts have not only grown steadily throughout the period of short-hour legislation, but what is far more impressive, they made larger gains than are shown by adjacent states with less radical short-hour laws." This quotation is in line with the statements contained in many of the statistical reports that I have investigated.

As indicating what experience has shown in our State, where shorter hours have been given women, I quote this telegram received by me in the early days of the discussion of the bill:

"HIGHLANDS, CAL., January 30, 1911.

Governor Hiram W. Johnson, Sacramento, Cal

Am informed that Citrus Protective League opposes bill reducing hours of labor of women and children in packing houses. I earnestly recommend the passage of this bill. Two years ago the Highland Orange Growers' Association, at urgent request of women, voluntarily reduced hours of labor to save breakdown in health. Result excellent. Better work, better health, less absence. Long ago I personally reduced picking hours in the groves. I got better and more work in shorter hours. Hope you can see your way clear to support measure protecting women and children doing piecework in cold, unheated, barnlike packing houses. Claim absurd that industry will suffer by passage of this bill. Citrus industry will be greatly benefited by shorter hours. Women and children need this protection. This is not a labor union movement alone, but a humanity movement. Protective League has not referred the matter to packing houses, and the opposition of the league does not voice the wish of fruit growers of great Highland District where hours have been voluntarily shortened. If you approve, will you show this message to Senator Avey and Assemblyman Bennink. Publish it if you wish.

(Signed) ALEXIS FRYE."

After the receipt of this dispatch, I received one from the Highland Orange Growers' Association endorsing all that Mr. Frye had wired me.

The eight-hour law for women is admittedly right in principle; it is the exemplification of humanitarianism; its beneficent purpose has long since attached to men. It may in some rare instances work hardships; but in those instances we may hereafter, as experience demonstrates the necessity, provide a remedy; and I shall not hesitate in the future, if the necessity becomes apparent, to ask any proper amendment. I do not believe the law will result in great disaster, financial or otherwise. I think that business conditions will adjust themselves to the law, exactly as business conditions have in the past adjusted themselves, in every instance, to remedial legislation of this character. The purpose of the Act, I believe, is just, and I have therefore attached my signature to the bill.

STEVENOT, Chairman.

SACRAMENTO, March 25, 1911.

Hon. F. J. Walker, Chairman Special Committee of the Assembly Investigating the Fish and Game Commission of California.

DEAR SIR: I am handing you herewith report of my investigation and examination of the books, records, and accounts of the Fish and Game Commission of California from July 1, 1907, up to and including February 28, 1911, together with my bill covering cost of said work. In connection therewith feel that some explanation may be needed in regard to same, not so far as you and the rest of your committee are concerned, but so far as the Assembly and the general public are concerned.

My report is most complete so far as details that could be adduced from the records of the same. The peculiar and chaotic condition of the records made necessary a vast amount of work which practically does not appear in the final summing up of my report. This you and your committee will readily understand, as the report is the concise resultant of all of my work—the annual balance sheet of the United States treasury contains less than forty items, representing a vast amount of work by hundreds of clerks and covers receipts from thousands of sources and the expenditures in thousands of avenues. So my report is merely the gist, or the findings, of thirty days of the most arduous labor that I ever contributed to any one piece of work. It required all of this time of myself and assistant to arrive at this result and to report to you the exact condition of the books of the California Fish and Game Commission. The average and regular hours of an accountant are six per day. Myself and assistant averaged over twelve hours each per day with the exception of only three days during that month. We worked until eleven o'clock P. M. and we were back at about eight the following morning. Our expense bills are necessarily high, but no larger than I would use in my own private business. I instructed my assistant to get as good a room as she could in a first class hotel, with a bath, as she was accustomed to in her own home, and I did likewise. Without such conveniences it would have been impossible to have completed this work within the time at our disposal. The most of our meals was necessarily large because we ate whenever and wherever we could, and because of the late working hours, we usually had a midnight luncheon. These are factors which I would and do use in my own private work, and the cost of living, I can assure you, is far below the actual expenses paid out by myself, but I have endeavored to include therein only reasonable expenses.

For several days I had employed a man who has assisted me at different times in perfunctory checking. This is drudgery work, and he could do it as well as myself or my regular assistant, and it greatly facilitated my work. I am, therefore, including his cost in my bill.

I am also including \$100.00 for the preparation and writing of the report. This is a class of work known as double minimum work, being almost entirely tabulation, and at the regular professional stenographic rate of wages would be worth about \$250.00. So, I feel that this is a reasonable and just charge.

It will be noted that while I have included a few charges for specially prepared and ruled blank sheets, which were absolutely necessary to do the work, no charge has been made for the rental of the office I occupied during the month. The regular rate for such offices is \$40.00 per month, but the long and close intimacy between myself and Mr. Caicy Friedlander, the secretary of the Merchants' Exchange and the custodian of their building, made it possible for me to have the use of the office with lights, heat, etc., without charge, and for which Mr. Friedlander is entitled to the thanks of your committee.

However large my bill may appear, I wish to assure you that I would not undertake the same for \$1,000.00, and when all of the factors connected with the same are considered, that sum would only be a reasonable remuneration.

Trusting that my work and report meets the approval of your committee, and that therefrom you can glean all the information you desire on the subject, and thanking you and your committee most sincerely for the courtesies extended to me at all times during this period, I remain,

Most respectfully yours,

PRENTISS MASLIN,
Certified Public Accountant.

REPORT OF THE SPECIAL COMMITTEE OF THE ASSEMBLY ON THE INVESTIGATION OF THE CALIFORNIA FISH AND GAME COMMISSION. F. J. WALKER, CHAIRMAN.

MR. SPEAKER: Your special committee, appointed pursuant to resolution regularly adopted by this Assembly, for the purpose of investigating the books and accounts of the Board of Fish and Game Commission and the manner in which, and the purposes for which, the money received by said Commission has been expended, and the charges of extortion by employees of said Commission, and the acts and conduct of said employees, beg leave to herewith submit its report and findings thereon.

Pursuant to the authority conferred by said resolution, your committee met in the city of San Francisco in the Merchants' Exchange building in said city, and at the first meeting of said committee, they at once took charge of and held under their control all books and papers connected with or belonging to the said Fish and Game Commission and placed the same under seal, and thereafter delivered the same to Prentiss Maslin, a certified public accountant, who, under direction of your committee, at once commenced the experting and examination of said books, papers, and accounts, and his report is herewith appended and made a part of this report.

Third—That the evidence adduced from the witnesses during the investigation and the result of the expert's examination of the books and accounts of the commission do not establish that any fraud or misappropriation of the funds by members of the Fish and Game Commission, or by its Chief Deputy, has been committed, but there is shown to have been a careless, if not reckless, handling of the funds at their disposal without due or apparently no regard to the results to be obtained by expenditure of money, and that there was an entire absence of a business system such as should be applied to the handling of large sums of money, and which lack of such system opened the widest avenue for incorrect accounts on the part of the deputies of the Fish and Game Commission, and that there was absolutely, so far as your committee were able to ascertain, no check or close supervision of the accounts of said deputies and that such accounts, when submitted by them, were accepted upon

merely the face value of the same and were not subjected to any sort of scrutiny or investigation.

Fourth—That the salaries of held deputies were raised without, so far as the evidence discloses, any reason therefor, and that such salaries of such deputies were raised in no instance because of efficiency or because of the work accomplished by them, but on the contrary it appears that salaries of such deputies were at various times raised and increased solely upon motion of some member of the commission without any reason being shown therefor.

Your committee further finds that the amount of money derived from the sale of hunting licenses is considerably in excess of the amount actually needed for the work of the Fish and Game Commission, and that an important factor in the preservation of fish and game life of this State is the preservation of the forests and streams of this State, and that by reason of the intimate connection of the subjects of fish and game and forestry that it would be to the great advantage of the fish and game protection that not less than one fourth of the funds derived from the sale of hunters' licenses should be transferred to the use of the Department of Forestry of this State for the purpose of protecting the forests from destruction by fires, many of which fires are caused by hunters, and we recommend that some provision be made by this or the succeeding Legislature for the transfer to said Forestry Department for the purpose of fire patrols of at least one fourth of said sums of money so collected for hunting licenses.

Fifth—That the result obtained from the expenditure of the large sums of money which came into the hands of the Fish and Game Commission were far less than the benefit which might reasonably be expected to be derived therefrom.

Sixth—That the Commission has at the present time under employment about seventy (70) deputies, most of whom are working at a considerable distance from the office of the Chief Deputy in San Francisco; that no proper supervision of the work of these deputies has been exercised by the Commission or its Chief Deputy, nor has a careful scrutiny of their expense accounts, submitted monthly, been made, either by said Commission or its Chief Deputy, and the records disclose no more than an unverified monthly statement submitted by said deputies, and there appears to be no system provided whereby such accounts may be checked, compared or verified. It would seem to your committee that some system of closer communication between the Chief Deputy and the various field deputies should be devised whereby such deputies would be under more direct supervision of the Chief Deputy and a better understanding of the work performed by said deputies should be had by the Chief Deputy.

Seventh—That in some instances appointments as deputies of such Fish and Game Commission have been made of keepers of private gun clubs, and that in many instances, deputies do not receive a salary, but depend for their compensation upon a reward paid to them by the Commission for arrest made of offenders against the fish and game laws, when, in the opinion of said Commission, the facts as submitted by the deputies justify such arrest, and regardless of whether or not a conviction of the offender has been obtained in such case.

Eighth—That many untrained men have been employed by said Commission and paid good salaries as outside or field deputies, and that prior to their employment no examination was made as to their qualification to fill such position, and thereafter, in some cases, the evidence discloses that such deputies possessed no qualifications whatever as such, but that regardless of such fact said deputies were retained in the employ of said Commission. It would seem, therefore, that political and other influences control to a greater degree in making such appointments than the qualification or competence of the person seeking the same.

Ninth—That a thorough reorganization of the entire system of management, control and supervision of the deputies of the Fish and Game Commission should at once be made, to the end that a full examination as to the qualifications of persons applying for the position of deputies should be had prior to their appointment, and that thereafter such deputy should be advanced in the service and their salary raised according to their ability and their efficiency in the service, and that thereby greater and better results may be obtained in return for the large sums of money expended annually in payment of salaries of such deputies.

Tenth—That the evidence adduced discloses that so far as the members of the Fish and Game Commission for the past four years are concerned or its Chief Deputies, there has not been practiced by them directly or indirectly or to their knowledge the extortion of money or anything of value from any person under promise of immunity of such person from arrest, or for any other reason or cause whatsoever, but the evidence does show that various deputies under the employment of said Commission have persistently and systematically for a number of years past, but not later than the first of August, 1910, demanded and accepted of and from various Chinese firms in the city of San Francisco, engaged in shrimp fishing, large sums of money and that in return for said large sums of money said deputies have promised said firms and their employees immunity from arrest for violation of the fish and game laws and that such immunity has been extended to them as a result of the bribes so obtained.

Eleventh—That the Fish and Game Commission, after the disclosures referred to above, suspended from employment Deputies C. B. Woods, E. M. McMillan, and

J. H. Davis, and subsequently finally discharged E. M. McMillan and C. B. Woods. The said Davis, however, is still under suspension, and in the opinion of the committee, he should no longer be in the service of the Commission, for the reasons that it appears from the evidence that on the 15th day of February, 1906, said Davis was, after an investigation made by the then Commissioners, Birmingham, Gerber, and Van Sicken, discharged for incompetency, insubordination and for accepting bribes. It appears further that without any investigation whatever upon the part of the present members of the Commission, and the then Chief Deputy of said Commission, the said Davis was reinstated and has been actively engaged in the service of said Commission as an outside deputy since such time up to the time of his suspension.

Twelfth—That there is no good reason for installing the Tuolumne Fish Repository, that said repository has been abandoned by said Commission, and there appears to have been no effort on the part of the Commission to preserve or protect the property of the state there located; that there now remains in said Tuolumne Fish Repository Fund the sum of two hundred and 5/100 dollars (\$200.05), which, in our opinion, should be turned back into the fund from which it was taken.

Thirteenth—That beginning in the month of October, 1907, to and including January 31, 1911, there has been paid as a bounty for lion scalps the sum of twenty-four thousand seven hundred and forty dollars (\$24,740.00); that while in each instance an affidavit taken before a justice of the peace or a notary public accompanies each claim, we find in no instance where such affidavits were taken before a justice of the peace a certificate of the county clerk of the county in which said justice has jurisdiction has been attached thereto. In justice to the present Commission, we deem it proper to say that they have adopted such system and will in future require the certificate of the county clerk to accompany affidavits when the same are taken before a justice of the peace. Your committee is unable to state that the expenditure of said sum of money for lion scalp bounty, as above stated, has or has not been justified. It appears that the payment of such bounties was ordered by the Commission upon the theory that the mountain lions destroy annually a large number of deer and that the destruction of the lions was really for the better protection of such deer.

Fourteenth—That at the meeting of the Commission held in the month of June, 1908, at which meeting M. J. Connell first appeared as a member of said Commission, there was, at the suggestion of said Connell, created what has been designated and is now known as the Southern Division, or department, of the Fish and Game Commission; that apparently without due or any consideration as to the results which might be obtained by the creation of such Southern Division, and solely upon the suggestion of the said Connell the said division was created, and that under and by the direction and authority of said Connell the office was established in the city of Los Angeles, as headquarters of the said Southern Division; that such division has been, since its creation, absolutely under the sole charge and control of Commissioner M. J. Connell, and the same has not been subordinate to the Fish and Game Commission, but has exercised authority coordinate with the said Fish and Game Commission.

Since the establishment of said Southern Division there has been expended the sum of six thousand six hundred and sixteen and 66/100 dollars (\$6,616.66) for rent, furniture, carpets, fitting up office, salary of stenographer and other purposes connected with such division, which expenses have not, in the opinion of your committee, been in any degree justified by the results obtained. In fact, it appears to the committee from the testimony of witnesses that such Southern Division was established not so much for the benefit to be derived by the people by protection and propagation of fish and game, but rather for the benefit to be derived, and which has been derived by the private gun clubs in said division.

It appears that since the establishment of such Southern Division, certain deputies in the employ and under the control of said M. J. Connell, a member of said Commission, and under whose exclusive control such Southern Division has been conducted, have, in the interest of such private gun clubs, continuously, during the past two years, patrolled what is known as Game Preserve No. 3, and which includes the exterior boundaries of Newport Bay, for the purpose of frightening therefrom waterfowl, and such waterfowl, by reason thereof, would seek such private gun clubs and were not permitted to remain in said Game Preserve No. 3 for resting, as intended when such game preserve was established.

Fifteenth—That the Fresno District is subordinate to the head office of the Fish and Game Commission, and its work is, for the most part, effective and the results justify the expenditures made; that great quantities of food fish are annually destroyed by reason of not screening the irrigation canals in King and Fresno counties, and by reason of the Fish and Game Commission's failure to install or cause to be installed proper fish ladders at the weirs and dams in King and other rivers in said counties.

Sixteenth—That there appears to be some effort on the part of the present members of the Commission to change the system of accounts and the management and supervision of field deputies and the general conduct of the affairs of such Commission.

Seventeenth—That the expenditure of thirty-five thousand dollars (\$35,000.00) in establishing and maintaining a game farm was not justified by the results so far

obtained. In the first place, in the judgment of your committee, the expenditure of at least ten thousand dollars (\$10,000.00) in establishing such farm on rented land could not be commended as a good business proposition. The acreage was entirely too large, and the boring of a well and the construction of permanent buildings, fences, etc., which would revert to the owner upon the abandonment of such farm was an unwarranted and an injudicious expenditure. At present there are only about five hundred (500) birds on the farm, and only a like number has been distributed with but anything like satisfactory results.

Eighteenth—And finally, from the most careful investigation that your committee has given this subject, we find that while no specific act even bordering on fraud or extortion can be charged to the Commission or the Chief Deputies thereof, yet the general conduct of the business affairs of the Commission since it has had at its disposal the large sums of money derived from the sale of hunting licenses has been characterized by a wanton extravagance, which if pursued in any private business would result in the disastrous wrecking of the same.

Respectfully submitted.

REPORT OF PRENTISS MASLIN, CERTIFIED PUBLIC ACCOUNTANT, ON THE INVESTIGATION AND EXAMINATION OF THE BOOKS, RECORDS AND ACCOUNTS OF THE CALIFORNIA FISH AND GAME COMMISSION, FROM JULY 1, 1907, TO MARCH 1, 1911, MADE TO THE SPECIAL INVESTIGATING COMMITTEE OF THE ASSEMBLY, F. J. WALKER, CHAIRMAN.

To the Special Committee of the Legislature of California investigating the Fish and Game Commission of California, Hon. F. J. Walker, Chairman

GENTLEMEN: In accordance with your instructions, I have made a thorough and complete examination of the books and accounts of the California Fish and Game Commission from July 1, 1907, up to and including February 28, 1911, a period of forty-six months, and investigated the methods pursued by the Commission in the transaction of their business and the handling of the funds at their disposal, and submit herewith my report thereon.

I made a most thorough examination of all the accounts of the Commission during the period above mentioned and carefully scrutinized every voucher, amounting to over eight thousand and covering the expenditure of \$610,752.93, for the purpose of arriving at a comprehensive knowledge of the business of the Commission.

The vouchers on file in the office of the Commission of the expenditure of this large sum of money is fairly complete so far as the actual expenditure is concerned. The vouchers are all on file, and with the exception of very few instances, the receipt is attached to each voucher acknowledging the payment of same by the claimant.

From an accountant's standpoint there have been no account books kept by this Commission, and the financial books of the Commission are merely records chronologically arranged showing the general expenditure of moneys under their control and at their disposal, but so far as account books from which could be gleaned comprehensive information showing the distribution of the expenditure or the cost of any one single item of expense, no effort has ever been made to keep the same. It is a physical impossibility for any accountant, or even for the clerical force of the Commission, to determine the actual cost of any particular work performed; that is to say, the actual cost of establishing any of the hatcheries now in existence can not be determined from the books of the Commission; the cost of the maintenance of each hatchery at any particular time is not known; even the general cost of the policing of the State for the purpose of preventing the violation of the provisions of law relating to either fish or game can not be determined, the cost of any one of the launches is an indeterminate quantity, and, in fact, there is absolutely no method or manner in which the cost of any one single item of expense in the general conduct of the affairs of the Fish and Game Commission in the preservation and restoration of fish and game and the support of the hatcheries can be comprehensively determined.

This statement may need some explanation, which is: A field deputy may devote part of his time during one month to investigating violations of the provisions of law relating to fish and the rest of the time to investigating violations of the provisions of law relating to game, but no segregation of his time has ever been made, so that it would be impossible to determine the actual cost of either of these items. The time of every deputy where his labor is divided should be at least approximately charged to each division of the work. The hatchery superintendent and assistants are employed at different times during the year at different hatcheries or spawning stations, but no segregation is ever made showing to what particular hatchery or station their time and expenses should be charged. Oil, gasoline, distillate and other supplies are purchased at Stockton and other points, some of

which undoubtedly has been used by the Bouldin Island Hatchery and some by launches, but no notation is made upon the vouchers showing where or by whom used. A large portion of the general supplies have been purchased in San Francisco, through the San Francisco office, and shipped to different hatcheries, spawning stations and launches, and no record or notation of where the same were used or to what department the same should be charged has ever been made, so that it was and is, an absolute impossibility for me to have complied with your instructions to furnish you in "detail" the cost of all the different items covered by the general expenses of the Commission during the period above mentioned. At the present time, all of the revenue of the Commission finds its way into two funds or reservoirs from which all expenditures are made or drawn. All of the fishing license money goes into the fund for the support of state hatcheries, which I believe is used or to be used solely for the maintenance of commercial hatcheries. All of the hunting license money and fines for the violation of the provisions of law relating to fish and game are deposited in the Fish and Game Preservation Fund, and is used or to be used for the general maintenance of the Commission, the policing of the State, restoration of game and fish and the support of game fish hatcheries. Under this condition, the expenditures have been made with some regard as to the nature of the same, but in the past when several appropriations were at the disposal of the Commission, but little regard was paid to the distribution of expenses; that is to say, that there are innumerable instances where money which should properly have been paid out of one appropriation or fund was drawn from another. At a time when the Commission had for its use appropriations for the restoration and preservation of game and for the restoration and preservation of fish, expenses properly belonging to one appropriation were paid out of the other. Hatchery employees were paid out of the Game Preservation Fund; the purchase of a launch, the use of which was practically to be devoted to the patrol of rivers for the prevention of violation of the provisions of law relating to fish or the arrest of violators thereof, was purchased out of the Game Preservation Fund. It was stated to me that the time such expenditures were made that the Commission believed that the expense of a hatchery employee could be paid out of the Game Preservation Fund because it was a hatchery devoted to preservation of "game" fishes, that it was the intention to use the launch in the work of preventing the violations of the provisions of law relating to game, but such statements only bear the "hall marks" of excuses and no sophistry in the world can make such misapplication of public funds correct.

All of the above statements apply to the years past, when the revenues of the Commission were small and the only justification that the Commission could have in diverting these funds from the proper channel is the moral one that they were endeavoring to carry out the purpose of the Commission to the best of their ability, and were at times compelled to resort to such methods.

During the past six months, there has been a decided effort to segregate the expenses of the Commission into the proper channels of expense, but this segregation is as yet crude and the fundamental or basic principle of the whole proposition has not yet been touched; that is, that a complete set of account books should be established and maintained; accounts opened therein with all of the hatcheries, launches, patrols, and other factors of the general work of the Commission, and all expense properly belonging to each one of the accounts should be charged thereto even to the extent of dividing one single bill or invoice so that the actual, absolute cost or maintenance of any particular hatchery, launch, etc., would be known at all times to the Commission and could be shown at a moment's notice to any citizen of the State of California, the authority of any state, or the United States or any foreign government who might be interested in the same and who by right or courtesy would be entitled to the information.

I am appending hereto first, a complete financial statement, showing all the receipts and disbursements segregated under the different avenues of expense so far as it was possible for me to determine from the vouchers and the notations thereon. You will understand, from what I have previously said, that it is impossible to make this segregation perfect and complete, owing to the lack of information. I have, therefore, made these segregations solely upon the information contained in the vouchers.

I am also appending detailed statement showing the transactions in every fund or appropriation during the period covered by my examination.

I am also appending hereto some thirty-eight statements or exhibits showing expenditures in detail of each fund or appropriation for each fiscal year; the fines collected for the violation of the provisions of law relating to fish and game for each year, for each county, and for all the different offenses for which the same were collected, the hunting licenses for each year and for each county wherein same were sold, the cost of the Game Farm at Haywards, Alameda County; the cost of the Los Angeles office, the bounty paid for the destruction of California lions in the different counties of the State and the Commission paid to the county clerks of the State for the sale of hunting licenses.

It was impossible for me to segregate the fishing licenses according to the counties in which the same were collected in order to obtain information of any value,

because of the fact that professional fishermen are, as a rule, nomadic, having no settled abode and only paying their license when required by the deputy fish commissioner to do so. The average professional fisherman, during one season or year might, at different times, be fishing on the north coast, in Humboldt Bay or vicinity, the San Francisco Bay and tributaries, the Santa Barbara Channel, Lake Tahoe, or other fishing ground as the run or open season for fish gives him opportunity to ply his vocation, and he might pay his license in one of several counties, so that no segregation of fishing licenses as to the county in which the same were paid, would be of any value.

I made a very thorough examination of the hunting licenses issued during the period which my investigation covers, and find many canceled, lost, and destroyed licenses, as well as duplicate issued licenses, appearing as credits on the License Book. There is no good, sufficient, or adequate check regarding the issuance of these licenses by any person other than the office force of the Commission. I, therefore, would most strongly recommend that inasmuch as these licenses represent a revenue amounting to about a quarter of a million dollars per annum, that the law be amended so that it will become the duty of the State Controller to issue these licenses, giving the same to the Fish Commission upon their requisition, charging them with the same and annually auditing their accounts as is done with the fishing licenses.

The careful scrutiny to which I subjected the vouchers during the period covered by my examination disclosed but few errors in figures, and these of small amounts, aggregating less than twenty in number and less than ten dollars in amount. I have made herein no notation of same because of their smallness and the evidence of being purely clerical errors and the fact that they occurred previous to the present fiscal year in funds that have been balanced and closed.

The payment of the large sum of money for the destruction of California lions during the past three years received very careful consideration from me in my examination of the records of the Fish and Game Commission. The claims, on the whole, are in proper form, accompanied by affidavits regarding the killing, which affidavits were executed before notaries public or justices of the peace. The only question that could be raised in this matter, it seems to me, is as to whether the persons before whom the affidavits were taken were properly appointed, qualified and acting notaries public or legally elected and acting justices of the peace, which could easily be determined, so far as the notaries are concerned by reference to the records in the Secretary of State's office, and so far as the justices of the peace are concerned by the records of the county clerks of the several counties of the State. I particularly noted the names of the claimants to whom these bounties were paid and did not notice any large or questionable number of bounties paid to any one person, which would probably happen in case of collusion or fraud.

In the consideration of the statements, tables, and exhibits appended hereto, it should ever be borne in mind that the figures therein set forth do not, as a rule, by any means represent the cost of the heading under which they appear, but are only the aggregate cost as shown by the vouchers on file in the office of the Commission, and that it is undoubtedly true that, in most instances, large amounts were paid for the cost and maintenance of the different factors that are converted into the general undistributed expenses of the Commission.

Respectfully submitted,

PRENTISS MASLIN,
Certified Public Accountant.

By Mr. Held:

I voted to concur in Senate amendments to Assembly Bill No. 1587 only because it is represented and claimed that without a clause providing for a delinquency in revenues that all appropriations made at this session will be void. I do not concur in this view of the law, but yield to the opinion of those so claiming.

MR. SPEAKER. In voting to concur in the Senate amendments to Assembly Bill No. 1587, I do so in order to protect the appropriations made by the Legislature. I am opposed to an ad valorem tax since the adoption of Constitutional Amendment No. 1 at the last general election, and voted to concur in said amendments under protest.

The question being put, "Shall the Assembly concur in the following Senate amendment to Assembly Bill No. 1177?"

SENATE COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL NO. 1177.

An Act to provide for the division of municipalities into sewer districts, and for the construction of, or acquisition and maintenance of sewers therein, providing a system of district sewer bonds to pay the cost of such construction of, or acquisition and also for the payment of such bonds

The people of the State of California, represented in Senate and Assembly, do enact as follows:

SECTION 1. The legislative body of any city, town or municipal corporation, incorporated under the laws of this State may create from time to time, as hereinafter provided, within such city, town or municipal corporation separate sewer districts whenever in the judgment of such legislative body it may be necessary or convenient for the proper sanitation and drainage of such districts to construct or acquire any sewer or sewers therein, and may designate such districts by distinctive names and numbers and may as hereinafter provided, provide for the incurring of indebtedness to pay for the cost of the construction or acquisition of sewers in such districts.

SEC 2 Whenever the legislative body of any such city, town or municipal corporation shall, by resolution passed by a vote of two thirds of all its members and approved by the executive of such municipality, determine that the public interest or convenience requires the construction of, or acquisition by purchase or otherwise of a sewer or any sewers in any part of the territory of such municipality, said legislative body shall describe in said resolution a district, naming and numbering the same as hereinabove provided, and declare said district to be the district benefited by said work or improvement, or acquisition of such sewer, and may, at any subsequent meeting, by ordinance passed by a vote of two thirds of all of its members, and also approved by the said executive, adopt plans and specifications for the proposed sewer work (if to be constructed), and also describe the territorial district upon which the expense of such proposed sewer work or improvement, or acquisition, shall be chargeable, as hereinafter provided and shall provide therein for a special election to be held in such city, town or municipal corporation. At such election there shall be submitted to the qualified electors of such city, town or municipal corporation, the proposition of incurring indebtedness for the purposes set forth in said resolution, and no question other than the incurring of the indebtedness for such purposes shall be submitted at such special election. The ordinance calling such special election shall also recite the objects and purposes for which the proposed indebtedness is to be incurred, the estimated cost of the proposed sewer work, improvement, or sewer system to be acquired, the amount of the principal of the indebtedness to be incurred therefor, and the rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, the manner of holding such election, and the manner of voting for or against the incurring of such indebtedness. In all particulars not recited in such ordinance, such election shall be held as is provided by law for holding general municipal elections in such city, town or municipal corporation. The maximum rate of interest to be paid on such indebtedness shall be six (6%) per centum per annum, payable semi-annually.

SEC 3 Said ordinance shall be published once a day for five days, prior to the date set for such election in some newspaper of general circulation, designated by the legislative body of said city, town or municipal corporation, which newspaper is published once a day for at least six days a week in such municipality or such ordinance shall be published once a week for two weeks prior to the date set for such election, in some newspaper of general circulation designated by said legislative body, and published less than six days a week in such municipality, and one insertion thereof in such last described newspaper each week for two succeeding weeks prior to the date set for such election by the legislative body of said city, town or municipal corporation, shall be a sufficient publication in such newspaper published less than six days a week.

In municipalities where no newspaper is published, such ordinance shall be posted in three public places in the said sewer district for two succeeding weeks prior to date set for such election by the legislative body of said city, town or municipal corporation. No other notice of such election need be given. It shall require the affirmative votes of two thirds of all the aforesaid qualified electors of said city, town or municipal corporation voting at such special election, to authorize the incurring of said indebtedness and the issuance of bonds therefor as provided herein provided, however, if the proposition so submitted at such election fail to receive the requisite number of votes of the aforesaid qualified electors of such city, town or municipal corporation, voting at such election to incur the indebtedness for the purpose specified, the legislative branch of such municipality shall have no power or authority within six months after such election, to pass any ordinance calling another election for incurring any indebtedness for sewer work within any sewer district which has within its boundaries any of the territory of the district in which,

at said election, the requisite number of votes for the issuance of said bonds has not been cast therefor.

SEC 4 All bonds issued under the provisions of this Act shall be issued in the name of the city, town or municipal corporation in which such sewer district has been formed, and shall be payable in the following manner. A part to be determined by the legislative body of the municipality, which part shall not be less than the one fortieth part of the whole amount of such indebtedness, shall be payable each and every year on a day and date, and at a place within the United States, to be fixed by the legislative body of the city, town or municipal corporation issuing the said bonds, and designated in such bonds together with the interest on all sums unpaid at such date, until the whole of said indebtedness shall have been paid.

The bonds shall be issued in such denominations as the legislative body of the municipality may determine, except that no bonds shall be of a less denomination than one hundred dollars, nor of a greater denomination than one thousand dollars, and shall be payable on the day, and at the place fixed in such bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of six per cent per annum, and shall be payable semi-annually, and said bonds shall be signed by any officer of said city, town or municipal corporation designated for that purpose by the city council, board of trustees or other legislative body of such city, town or municipal corporation, by resolution adopted by a two thirds vote of all of its members, and shall also be signed by the treasurer thereof, and shall be countersigned by the clerk of such city, town or municipal corporation. The coupons of said bonds shall be numbered consecutively and signed by the treasurer.

In case any of such officers whose signatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officers had remained in office until the delivery of the bonds.

SEC 5 The legislative body of the city, town or municipal corporation within whose territory such sewer district has been created as herein provided, may issue and sell said bonds at not less than their par value, and the proceeds of the sale of such bonds shall be placed in the municipal treasury to the credit of the proper sewer district fund and shall be applied exclusively to the purposes and objects mentioned in the said ordinance.

SEC 6 Before the legislative body of such city, town or municipal corporation shall award the contract for doing any sewer work or improvement, the expense of which is to be paid out of the proceeds of sales of the bonds issued in accordance with the provisions of this Act, said legislative body of said city, town or municipal corporation shall cause notice with specifications to be posted conspicuously for five days on or near the chamber door of said legislative body, inviting sealed proposals or bids for doing said sewer work or improvement, and shall also cause notice of said work inviting said proposals and referring to the specifications posted or on file, to be published for two consecutive insertions in a daily, semi-weekly or weekly newspaper, published and circulated in said city, town or municipal corporation, designated by said legislative body for that purpose, and in case there is no newspaper published in said city, town or municipal corporation, then it shall only be posted as hereinbefore provided. All proposals or bids offered shall be accompanied by a check, payable to the order of the executive officer of said city, town or municipal corporation, certified by a responsible bank for an amount which shall be not less than ten (10%) per cent of the aggregate of the proposal, or by a bond for the said amount, and so payable, signed by the bidder and by two sureties who shall justify before an officer competent to administer an oath, in double such amount, and over and above all statutory exemptions. Said proposals or bids shall be delivered to the clerk of said legislative body, and said legislative body shall in open session examine and publicly declare the same. Said legislative body may reject any or all proposals or bids should it deem this for the public good, and shall reject all proposals or bids other than the lowest proposal or bid of any responsible bidder, and may award the contract for said work or improvement to the lowest responsible bidder at the price named in his bid, which award shall be approved by the executive officer of said city, town or municipal corporation, or a three-fourths vote of the legislative body of said city, town or municipal corporation. If not approved by said executive officer or a three-fourths vote of said legislative body, without further proceedings the said legislative body may readvertise for proposals or bids for the performance of the work as in the first instance, and thereafter proceed in the manner in this section provided, and shall thereupon return to the proper parties the respective checks and bonds corresponding to the bid so rejected. But the checks accompanying such accepted proposals or bids shall be held by the clerk of said city, town or municipal corporation, until the contract for doing said work has been entered into by said lowest bidder. But if said bidder fails, neglects or refuses to enter into the contract to perform said work within ten days after said contract shall have been awarded, then the certified check accompanying his bid and the amount therein mentioned, shall be declared to be forfeited to said city, town or municipal corporation. The said legislative body shall have the right to require such bonds as they may deem adequate from the bidder to whom the contract for said work or improvement is

awarded, to insure the faithful performance of said contract. Such officer of said city, town or municipal corporation as the legislative body thereof shall designate, is authorized, in his official capacity, to make all written contracts and to receive all bonds authorized by this Act, and is authorized to fix the time for the commencement, which shall not be more than fifteen days from the date of the contract, and for the completion of the work under all contracts entered into by him, which work shall be prosecuted with diligence from day to day until completion, and he may extend the time so fixed from time to time under the direction of said legislative body of said city, town or municipal corporation, *provided, however*, that nothing herein contained shall be construed as prohibiting such city, town or municipal corporation itself from constructing or completing such sewer or improvement, and buying the material, and employing the labor necessary therefor; *provided, however*, that this section shall not apply where sewer systems, or any part of a sewer system, already constructed has been, or is to be acquired under this act.

And provided, further, that in cities, towns and municipal corporations operating under a charter heretofore or hereafter framed under Section 8, Article XI of the Constitution of the State of California, and providing for a board or department of public works, all the things required in this section to be done and performed by the legislative body of the municipality shall be done and performed by the board or department of public works of such city, town or municipal corporation, and in case such charter also prescribes the manner of letting and entering into contracts for the furnishing of labor, materials or supplies for the construction or completion of public work or improvements, all contracts for the construction or completion of sewer work or improvement shall be let and entered into in conformity with the provisions of such charter.

SEC 7. The legislative body of said city, town or municipal corporation shall, at the time of fixing the general tax levy, and in the manner for such general tax levy provided, levy and collect each year upon the property situated within such sewer district formed as hereinbefore set forth, and upon such property only, and until such bonds are paid or until there shall be a sum in the treasury of such city, town or municipal corporation set apart for that purpose, sufficient to meet all sums coming due for the principal and interest on such bonds, a tax sufficient to pay the annual interest on such bonds, and also such part of the principal thereof as shall become due before the time for fixing the next general tax levy; *provided, however*, that if the maturity of the indebtedness created by the issue of said bonds or any part thereof, be made to begin more than one year after the date of the issuance of such bonds such tax shall be levied and collected at the time and in the manner aforesaid, annually, each year, sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for the payment of the principal thereof, on or before the payments herein provided for, shall become due.

The taxes herein required to be levied and collected shall be in addition to all other taxes levied for the municipal purposes, and shall be collected at the time, and in the manner, as other municipal taxes are collected, and shall be used for no other purpose than the payment of the sum or sums of money due on said bonds and the accruing interest thereon.

SEC 8. It shall be the duty of the legislative body of every city, town or municipal corporation, wherein sewer work or improvement is being made or acquired under the provisions of this Act, to make all needful rules and regulations for carrying out and maintaining such sewer work or improvement, to appoint all needful agents, superintendents and engineers to properly look after the construction and operation of such sewers, *provided*, that in cities, towns and municipal corporations operating under a charter heretofore or hereafter framed under Section 8 of Article XI of the Constitution of the State of California and having a board or department of public works, all the matters and things required in this section to be done and performed by the legislative body of the municipality shall be done and performed by the board or department of public works of such city, town or municipal corporation.

SEC 9 This Act shall in no wise affect any other Act by the provisions of which sewer work or improvement may be done within or by any city, town or municipal corporation, but it is intended to and does provide an alternate system of proceedings for sewer work and improvements, and it shall be within the discretionary powers of the legislative body of any city, town or municipal corporation to proceed in making such improvements either under the provisions of this Act, or under the provisions of any other Act. But when any proceedings are commenced under this Act the provisions of this Act and such amendments thereto as may hereafter be adopted, shall thereafter apply to all work done under such proceedings until the completion thereof. If, after certain sewer work or improvement has been done or sewers acquired under provisions of this Act, the legislative body of any city, town or municipal corporation shall deem it necessary or convenient to construct or acquire any additional sewer or sewers, it shall be within the discretionary powers of the legislative body of any city, town or municipal corporation to proceed in making such improvement either under the provisions of this Act or under the provisions of any other Act relative thereto. But any provisions contained in any other Acts in conflict with the provisions hereof shall be void as to, and of no effect upon, proceedings commenced under the provisions of this Act, except as herein provided.

The following message from the Governor was received, read, and ordered printed in the Journal:

STATE OF CALIFORNIA, EXECUTIVE OFFICE,
SACRAMENTO, March 27, 1911.

To the Legislature of the State of California:

In saying good-bye to you at the close of the thirty-ninth session of the Legislature of the State of California, I extend not alone to you, but to the people of the State of California, my congratulations. Never before has such wondrous work been so well performed by any Legislature: never has been evinced in the history of our State such a steadfastness of purpose and such fidelity to promises made to the people. No pledge given to the people of the State has by this Legislature been broken. Not a single promise is to-night left unfulfilled. It is for this reason that I congratulate the people of the State of California on the Legislature whose session is now at an end, and so far as I can represent the people of the State of California, I extend to you their heartfelt thanks.

You may all be justly proud of the past eighty-five days, and of the tremendous strides that have been made governmentally during that period. But few now realize the transcendent importance of the work you have done. The record seems an impossible one. I recall to you some of the measures you have enacted, and the astounding accomplishment may be seen as they are grouped together:

1 The railroad bill, giving to the Railroad Commission power and authority to stand as a bulwark between the people and the transportation companies, together with a cognate constitutional amendment which will remove, it is hoped, the fear of judicial interpretation of the Commission's authority and acts.

2. The initiative, referendum and recall, by acts which have now become laws, granted to municipalities and to counties, and by constitutional amendment to be passed upon by the people, to be accorded to the State as well if the people desire it.

3. The reform of the Australian ballot, by which that ballot has been returned to its original purity.

4. A non-partisan judiciary, secured by a reform of the ballot, and the like non-partisan character of officials having in charge matters of education.

5. The direct primary law, cementing the power of the people in the matter of nominations and permitting the people what so long they have desired, practically an election of United States Senators by direct vote, and this in the most advanced form, known as the Oregon plan.

6. The employers' liability law, designed to permit without unreasonable delay, a fair recovery by the employee for injuries sustained, without injustice to the employer.

7. Conservation acts for the preservation of the natural resources of the State for all the people and for future generations.

8. A reformatory for first offenders, that humanity may enter into the treatment of the erring young and those who for the first time have been guilty of infractions of the law.

9. An eight-hour law for women, whereby our women are secured what in their weakness they have been unable to obtain and what men long since obtained for men.

10. The prison bill, under the beneficent terms of which those convicted of crime may learn useful trades and under which the State will so profit financially that ultimately the prisons now costing the State more than half a million dollars annually, will maintain themselves.

11. Local option, that every community may for itself determine whether or not it desires in its midst the liquor traffic.

12. County home rule, bestowing upon the counties of the State what has always been their right, the government of themselves.

13. The Board of Control, by which the superannuated system of the State Board of Examiners will be abolished, and under which a healthy supervision of the state institutions may be exercised and proper methods of accounting on a business basis may be installed.

14. The highway act, for good roads in the State of California, their maintenance and construction, and the expenditure of eighteen millions of dollars in a uniform system of good roads.

15. The various acts for the reform of criminal procedure, by which many of the technicalities heretofore prevailing, particularly in reference to examinations of grand jurors and the like, will hereafter be eliminated.

16. The weights and measures bill, designed to correct the evils now existing in weights and measures in the State of California, evils which according to the Federal authorities, extend even to the existence to-day in our great cities of more than 33 1/4 per cent in fraudulent scales.

17. The constitutional amendment, designed to permit control of public utilities throughout the State.

18. The pure food bills, by which misrepresentation may be prevented in the sale of foods.

19. The various bills reorganizing existing commissions so that greater economy and efficiency may be obtained.

20. The race track bill, by which oral betting, which superseded the former method of betting, may be prevented.

21. The improvement of Monterey harbor, so that by the expenditure of two hundred thousand dollars by the State the United States in that work will expend four hundred thousand dollars.

I have not by any means in this list completed the good or the great things you have done, but what a record of achievement is there. No such record has ever before been presented by any Legislature. You have performed your task; you have kept the faith. By the thinking, unselfish, patriotic people of California, the thirty-ninth session of the Legislature will ever be held in grateful remembrance.

HIRAM W. JOHNSON,
Governor.

By Mr. Coghlan:
